would otherwise sustain by the Death of such Persons. The Managers being satisfied that the Premiums which e hitherto been required for Assurances, were not erly graduated according to the Ages; have had others ulated, proportional to the real Values of the Risks at different periods of Life; which will be found to be more eal than any heretofore formed, the Premiums having been, many cases considerably reduced.

B.—Assurances on the Lives of Persons engaged in the y or Navy, or going beyond the limits of Europe, may made by special agreement.

tables of new Rates with the Conditions of Assurances be had at the Agent's Office, on application, and every rmation respecting Assurances given.

TO BE LENT,
One Thousand Pounds

The following are some of the rates of Premiums on Assurance against Fire, viz.:—

Common Assurance .. .. 2s. *per Cent;*
Singly Hazardous ..... 3s. *Ditto;*
Doubly Hazardous ..... 5s. *Ditto:*—

The Venetian blinds and experience of this Company enable them to Insure Mills, and other special risks, at the safest and most moderate Premiums: Corn Stores, with one Kiln, containing stock consisting of Corn and Grain only, being but a Singly Hazardous Risk, are Insured at 3s. per cent. But Merchants who have been informed by Insurance Agents that this Singly Hazardous Premium will cover general Merchandize contained in Corn Stores with Kilns, ought to carefully examine their Policies, in order to ascertain if their properties be at all Insured:—So large a sum as £3000 may be Assured on Mill Risks.

The wise principles, and honest practices, pursued by the CORPORATION OF THE ROYAL EXCHANGE ASSURANCE during a period exceeding a *Century*—their consequent accumulation of riches and reputation—and their unrivalled liberality, have obtained for this Establishment the first character among the Insurance Institutions of the Empire—secured for it a corresponding public confidence—and given it an extent of business, in this country, unattained by any other Company.

The Persons Insured at this Office do not depend upon an uncertain fund or contribution—are neither subject to covenantry, nor liable by Acts of Parliament, to make good the Losses which may happen—the real Capital Stock of the Corporation being an unquestionable Security to the Assured.

Losses are paid, *in full*, without delay; and documents for Claimants are prepared gratis.
