## YOU WILL BE AT YOUR BEST

You will enjoy better health than you have known for many a long day when you get rid of the digestive disorder from which you are suffering. Perhaps you have never realized the close relationship that exists between your "touch of indigestion" and the various unpleasant sensations of which you are too frequently aware. The relationship is that of cause and effect. Headaches, depression, lack of energy and weakness are often traceable to derangement of the stomach liver and kidneys or to constipation. Begin at once to lay the foundation of good health by resorting to Beecham's Pills.

## PRIDAY EVENING, NOVEMBER 10.

Ireland's Affairs MATTERS of the greatest Importance for Ireland we de considered as the adjourned meeting of the Irish Party held yesterday in the House, of Commons, Mr. REDMOND presiding. The several questions considered are of vital concorn to all classes of our people, and the dealsions arrived at regarding them are such as are certain to secure general and enthusiastic approval throughout the country. As a result of the deliberations Mr Dillon's question to the Government as to the release of the untried prisoners and an alteration in the status of the prisoners at present being treated as convicte in

to be asked on Tuesday next, and unless satisfactory answer is then given the member for East Mayo will press for an early day to debate his motion in accordance with the promise given by the Prime Minister last week, Regarding the potato crists, which Pathe Freres' Topical Gazette. The News of one of great urgency, and delay dealing with which may have a most disastrous effect, "the Party have learned with satisfaction," as the official report puts it. " that the Government are considering the immediate prohibition of the exportation of potatoes out of Ireland in accordance with the representations made by the Party." On the question of the present enormous soal prices and the further advance likely to take place the opinion was registered that the Government, through the Local Government Board, should take steps, in co-operation with the focal authorities, to accure supplies for the poor at prices within their reach, and that the necessary steps for preventing a shortage should be undertaken by the Board of Trade. These suggestions are excellent ones, and the Party, a committee of which was appointed to see afte the matter, can safely be depended upon to effective force in the proper quarters. Old age pensions also engaged the consideration of the

meeting, and it was determined to strongly. oppose "the claborate, coulty and distory system of inquiry and examination into the eleennistances of each old age pensioner auggested by the Government before any Increased pension is to be granted," As the peneton is at present scaled according to means, and as the rise in the cost of living is general, it is properly pointed out, the greated pension to meet that rise organ to apply generally. The uncatisfactory way in which the war benus to Irish teachers has been dealt with by the Treasury was discussed, and as a result the Government is to and just demands in regard to more adequate provision for the lower grade trackers, putting tily the apticipation that Mr. Hervard's venture women teachers on the same scale as the others and extending the war bonus to pencloners and workhouse teachers. Mr Davida's recent letter to the Chief Secretary regarding these matters was a telling and masterly presentation of the teachers' claims to better treatment than they have been receiving, and it is of significant interest to note that Mr DUKE has written privately to the member for West Belfast for further facts and figures regarding the subject. Amongst the other matters on which the Party arrived at practical decisions is the difference of treatment between Irish and British railway servants in thematter of war bonus, and it was agreed that " every possible measure is to be taken to remove this gross anomaly." Regarding the question of labourers' cottages and artizans' dwellings the Party decided to call on the Government "to allow local authorities in elroumstances call for it, owing to incremed
