ous and numerous gang of robbers, was ine some months past committed several burglaries in this neighbourhood, particularly at Mr. Hezekinh Holland's, at Croffagallow, and at Parrick Kesting's, near Sixmile-Bridge, in the county of Clare, on the 21st of December laft, on which night they were prepared to break into the house of John Singleton, Elq; of Ballygrenne, in faid county, but two of the gang getting intoxicated, they thought proper to decline it until another opportunity; feveral other gentlemens' honfes in the counties of Clare, Limerick, and Tipperary, were marked out to be villted by this gang, which by the fairted reception they met at Mr. Palmer's, has been rendered abortive; and it now remains with the respective Magistrates and Gentlemen to be active in fcouring the country of the remainder of those desperate villains.

Last night Sheriff Sargent, sfifted by the High Contable, and Mr. George Davis, apprehended John Gellagher, butcher, in his own house outlide Thomsand-gate, and lodged him In the City Jull; he was one of the above mentioned gong, and is particularly charged with being at the leveral burglaries before recited : from the candid unequivocal confession and difcovery of Thompson, there is every reason to hope more of those villains may be brought to

jultice.

LANT. HILL;

Encouragement for Agriculture.

T a Meeting of the Bretoers and Malsters In of the City of Limerick, at the Mercantile Coffee-House, on Monday the 19th of December, 1791, to take into Confideration Measures necessary to be adopted, to remedy the Grisvances which they now labour under; it appearing from the light quality of the Barley, grown in the County of Limerick, and parts adjacent, that a very confiderable Charge of Revenue is brought against them, more than in many other parts of this Kingdom.

That the Revenue on Maisters being charged by Guage only, and the kind of Grain generally brought to Limerick being of inferior quality of Bere and Barley, and of a light thin body, occupies more space than Grain of a fuller lubstance, by which the Charge is increased at least ten-pence per Barrel Duty, more

than Barley grown from English Seed.

RESOLVED, That for want of a proper kind of Grain for Malting, the Brewing Business in the City of Limerick is on a decline, and must in a short time be inevitably flopped, without the exertion of the Farmers of the County, to improve the Agriculture of English Barley .- That at prefent the Import of English Porter is alarming to the Breweries of Limerick, and the Land-Holders of the County, whole dependance is chiefly on the confumption of their Corn for the payment of their Rents.

Therefore, in order to encourage the Agriculture of this County, in the Growth and Improvement of English Barley, which we confider to be the only means to remedy the Evil complained of,

RESOLVED, That we will in future pay One Penny per Stone more for Barley than Bere.

RESOLVED, That after the 29th September next enfuing, we will not buy any other Grain for Malting than Barley.

RESOLVED, That any Farmer bringing Bere or Barley to Market, not screened from dirt or light grain, or not answering the sample, we will not purchase or

receive it on any terms.

RESOLVED, That for the encouragement of English Barley we will provide against the next season for sowing Barley, a quantity of the best English Seed Barley, and deliver the same one Shilling per Barrel, less than the Market Price of the most inferior Barley, on the Farmers making affidavit the Barley fo got, shall be fowed on his land, and not appropriated to any other purpole, and in two Months after the laid Barley is fowed not exceeding more than fourteen flones to the Acre, fworn before the most convenient Justice of Peace, shall receive a further encouragement of one Shilling per Barrell, to be paid them by the Committee of the Maifters and Brewers, for fuch Barley as has been fatisfactorily proved to have been fold in this Market.

RESOLVED, To make those our Resolutions Public, we will continue them in the Three Limerick Papers &
