MELANCHOLY EVENT.

On Monday morning last a meeting took
place near this city, between H—y V—ker,
and M—l F—nell, Esqrs.—every effort was
made by the gentlemen present to conciliate the
affair, but it is to be lamented, that one shot was
fired, which unfortunately passed through the
body of the former, who expired in two hours
after.—The most poignant and universal grief
bewails the untimely fate of this young gentle-
man, beloved and admired by all who knew him.

A Correspondent observes, that, as every
article has risen to almost double the price it
was forty years ago, especially potatoe ground,
which at that time let for thirty or forty shillings
per acre, should not some mode be struck out
(and Magistrates may do it at their Quarter
Sessions) to increase the poor man's hire? In
most parts of this country he is still obliged to
work from six to six for five pence; the highest
he is allowed is sixpence halfpenny a day, and
we all know that he must now pay from four to
eight pounds an acre for his potatoe ground:—
By an increase of hire he'd be enabled to send
his children to school, which in time would
render them more civilized, nor should we see
our fellow-creatures, the workmanship of the
