The present month presents the husbandman with the most flattering prospect of abundant and rich crops of every kind—from the continued humidity of the season, grass has been every where abundant and thick, equally favourable to pasture, and hay, which must sell at very reduced prices the next winter.—Barley and wheat are luxuriantly promising, and by the present seasonable heats growing rapidly to maturity. Potatoes, the staff of life for the poor, are very plentiful, and of excellent quality. Roots, and vegetables in general, of every kind, are far from being scarce, dear, or bad—so that there is every reasonable ground to hope that the present year will be as fruitful and cheap as any in the remembrance of man. Accounts from England are equally favourable in this respect, and gladden the peoples' hearts with the pleasing prospects of a continued peace and plenty.

Last Thursday evening the following melancholy accident happened at Currah, the seat of Sir Vere Hunt, Bart.—Michael Mulligan, a servant of Counsellor O'Dwyer's, in a wrestling match, received so severe a hurt in the lower part of his belly, that a mortification ensued; and, notwithstanding the most immediate medical assistance was procured, he expired in a few hours. The unfortunate young man, who was innocently the cause of his death, has been since in a state of insanity. The Coroner's inquest sat on the body, and brought in their verdict—*Accidental Death.*

Tuesday morning, between the hours of three and four o'clock, some villains attempted to force into the house of Mr. Henry Bennis, No. 30, Bridge-street, through a window in his parlour, having previously got into an adjacent yard; they made their escape before he could get at them.—[See Advertisement.]

For some time past a spirit of discontent prevailed between the working people of different branches of manufacture in this city, which was yesterday terminated to the entire satisfaction of the parties, and community at large, through the intervention of our worthy Chief Magistrate.
