TROTTER's ASIATIC TOOTH POWDER, Or, ORIENTAL DENTIFRICE.

"HIS Article is cleaning to the Teeth, Iweetening to the Breath, and the fafety of its ule, from not having in its composition any acid that can corrode or wear off the enamel, are facts acknowledged by the most respectable Medical authorities, and which have established its reputation with persons of the first diftinction .- From its aftringency it ftrengthens the Cums, eradicates the Scurvy, preferves found teeth from decay, prevents decayed teeth from becoming worfe, and often proves the happy means of lecuring them from being drawn, as many Ladies and Gentlemen who have been in the habit of using it can affirm. -- But what enhances it in their estimation, is its having cured that most excruciating of all pains, the TGOTH ACH, with which many of them before that period were violently afflicted. The Teeth, however discoloured by neglect, will foon acquire a beautiful whiteness.

M. Trotter, Widow to the late N. Trotter, Chymift, of Bear-lane, who conttantly supplied Debraw, particularly cautions the Nobility and Gentry against purchaling any of the Afiatic Tooth Powder, but at the above place.
