L I M E R I C K.

From the best authority, we can inform our Read-
ers, that an Express was received in Dublin, last
Wednesday Night, with an account, that WAR had
been Declared against France, in London, on Monday
last;—a similar Declaration it is expected will take
place in this Kingdom the ensuing week.

A few days ago, a murder attended with horrid
circumstances was committed on an industrious Farmer,
near Birt, who was known to have a small sum of
money; the villains tied him in bed, and with a sharp
instrument goaded him until he confessed where it was
deposited; they then clove his scall in two; after which
they used his wife and mother in so barbarous a manner
as to leave them without signs of life; fortunately
however they have so far recovered, as to be able to
identify the four Villians concerned, who are now in
custody, one of whom has turned Approver.
