

believe that his Lordship will afterwards go as Governor General of Bengal.

Tuesday the Court-martial which has been sitting for some days past, on an officer of the 17th Dragoons closed its enquiry, and reported its sentence to the Commander in Chief, to be transmitted to his Majesty for approbation.

Not a doubt now remains of the removal of Lord Westmorland—This matter had been determined upon before the late much lamented domestic calamity. The Marquis of Abercorn had formerly the refusal of the Viceroyship—indeed, from the intimacy at all times subsisting between the Premier and the Marquis, there can scarce be a doubt that the appointment may again be had.

Other reports with confidence mention the Duke of Leeds as successor—his Grace being in law to Lord Hawkesbury, whose ascendancy with the King and the Cabinet is paramount—surely must have high pretensions.

Among the Law Arrangements the following is considered as most likely to take place.

Mr. Chamberlaine Judge of the Common Pleas, vice the late Judge Hellen.
Mr. Solicitor General Toler succeeds Mr. Baron Hamilton on the Exchequer Bench.
Mr. Marcus Beresford, Solicitor General.
Mr. Barrington, one of the Council to the Commissioners.

It is farther said, that the Lady of the Solicitor General is to be created a Peeress in her own right.

Right Hon. the Speaker has notified in the Gazette, that at the end of 14 days he will issue his warrant to the Clerk of the Crown to make out a new writ for electing of a burges for the borough of Middleton, Co. Cork, in the room of Col. T. Pigot, deceased.

It is said that the deluded people in the county of Meath, who are known by the name of Defenders, held nocturnal meetings, for the purpose of trying such persons as shall be active in preventing their depredations; and in case the mock Juries find them guilty, they pronounce sentence of death in form.

It is certain that the gentlemen of the county of Meath are afraid to leave their houses after night-fall, lest they should be assassinated by the miscreants who scour the country, and breathe nothing but threats of vengeance.

Collins, against whom Bills of indictment had been found on a charge for forgery, by altering a bank note of the Right Hon. David Latouche and Co. and who had given bail to take his trial at the last commission, but absconded, was yesterday lodged in Newgate.—He was taken up in London, was conducted there by two men from the public office in Bow-street.

Another Proclamation of our Lord Lieutenant and Privy Council for a quarantine, has appeared in the Gazette of yesterday, by which the said quarantine is extended from the States of Pennsylvania to new Jersey, State of Delaware, and to vessels from every port or place in the West Indies. This quarantine to continue forty days from that on which the vessel comes to an anchor.

Our active Chief Magistrate, Henry D'Este, Esq; has stepped forward in the above truly patriotic cause; and we doubt not but the Subscriptions raised in Limerick will far exceed the expectation of the most loyal advocate; particularly as it is intended that the Sums so raised shall be laid out in the manufactures of this City.

On Wednesday last, a Countryman was convicted before the Worshipful Mayor, of having sold a large quantity of Wheat, by one Bag as a sample, the greater part of which proved to be of a very inferior kind, and a part to be the property of another person, put in for the purpose of selling it the better;—the Mayor fined him in one Bag for the Poor, and ordered the remainder to be paid for at the lowest price Wheat sold for that day.
