#### LIMERICK.—APRIL 16.

*This Evening arrived One Packet, via Milford.  
L O N D O N,—April 11.*

We have to communicate to our readers that the hopes which were formed of a speedy Peace being concluded, has vanished: On the 8th ult. Mr. Wickham, our minister to the Swiss cantons, transmitted a Note to Mr. Barthelemi, to which the Directory returned for answer, that they will either make nor listen to any proposal contrary to the laws of France.—In consequence of which the following official notice has this day appeared.

The Court of London has received from its Minister in Switzerland, the answer made to the questions which he had been charged to address to Monsieur Barthelemi, in respect to the opening of a Negotiation for the re-establishment of general tranquillity.

This Court has seen, with regret, how far the tone and spirit of that answer, the nature and extent of the demands which it contains, and the manner of announcing them, are remote from any disposition for Peace.

The inadmissible pretension is there allowed of appropriating to France all that the laws actually existing there may have comprised under the denomination of French territory. To a demand such as this is added an express declaration, that no proposal contrary to it will be made, or even listened to: and this, under the pretence of an internal regulation, the provisions of which are wholly foreign to all other nations.

While these dispositions shall be persisted in, nothing is left for the King but to prosecute a war equally just and necessary.

Whenever his enemies shall manifest more pacific sentiments, his Majesty will at all times be eager to concur in them, by lending himself, in concert with his Allies, to all such measures as shall be best calculated to re-establish general tranquillity on conditions just, honourable and permanent: either by the establishment of a Congress, which has been so often and so happily the means of restoring Peace to Europe; or by a preliminary discussion of the principles which may be proposed, on either side, as a foundation of a general pacification; or, lastly by an impartial examination of any other way which may be

to proceed for London, was towed up to Capt. Hill's quay;—the cargo has been put on board vessels sent for that purpose from London.

Capt. Phelan, of the brig St. Anthony, of Dublin, is just arrived here, after being captured on the 8th inst. by a French privateer called the Frontise, of Brest, Capt. Leptaw, in latitude 50. 30. long. 9. 30. the privateer also captured the Hope, Jameson, of Dumbarton; the Integrity, Steel, of Workington; the said vessels were all loaded with provisions at Limerick, and bound for London, the masters and crews were put on shore in the Sound of the Dorseys, and the vessels were sent to France.—Said privateer also fell in with the Brothers, bound from Limerick to London, with provisions, the Captain of which vessel having hoisted Hambro' colours, escaped.—Capt. Phelan also reports, that said privateer took a vessel bound from England to Newfoundland; and also a vessel loaded with salt, for Cork, was pursued by the privateer into Kenmare river, and taken.

BIRTH. Yesterday, the Lady of William Maunfell, jun. Esq; of Island-Place, of a daughter.

MARRIED. At Ross, Co. Tipperary, George Harding, Esq; of Nenagh, to the agreeable Miss Peacock, daughter to the Rev. Robert Peacock, Chancellor of Kilsenora, in the Diocese of Killaloe.
