

Admiral Duncan's fleet arrived in Yarmouth Roads on Monday last, from a cruise off the Texel. Several of the ships have sustained much damage by the late heavy gales; but the crews are all in good health, and in the most perfect state of subordination. The Dutch fleet still remains in the Texel, and it is the opinion of Admiral Duncan that they are not at present in a condition to put to sea.—Admiral Duncan's fleet consists of the following ships: Nassau; Gan- ges; Director; Caesar; Venerable, Admiral Duncan; Ruffel; Belliqueux; Adamant; Lan- caster; Monarch, Vice-Admiral Onslow; Mon- mouth; Triumph; Agincourt; Veteran; Ar- dent; Lion: four ships are gone to the Nore to refit; Repeating Frigates, Circe and Champion.

The Lords of the Admiralty have re-commissioned the Montague, of 74 guns, which has been in dock for repairs at Portsmouth, and have appointed Captain John Knight to command her.

L'Intrepid privateer, of 20 guns, and 150 men, and the Chasseur ditto, of 12 guns and 50 men, were destroyed by the Brilliant frigate, between North Bergen and the Naze of Norway, on the 1st of September last.

The privateer la Mouche, belonging to Rochelle, has carried into that port an English prize, the cargo of which is estimated at 1,700,000 livres. This privateer has also captured two Portuguese vessels.

It is not true that Colonel F. attempted to commit any violence on his own person. After the duel on Sunday, rendered bloodless through the strong passions which agitated the parties, they were both put under arrest by their Commanding Officer, and nothing further has occurred.

DUBLIN, — Oct. 9

The letters received by our Merchants from London, by Saturday's Mail, contain the very disagreeable intelligence, that advices had been received and credited at Lloyd's, of a declaration of war being actually announced by the French Directory against the United States of America. A determination evidently hostile to the trade of these kingdoms.

From the most minute investigation that has taken place, we can assure the Public, that there is no foundation whatever, for the report so industriously propagated of the French General Clarke (brother-in-law to General Buonaparte) being in this City last week.

In consequence of a determination not to proceed on the long desired silver coinage, two millions of gold seven shilling pieces are preparing at the Tower Mint for the better accommodation of the public.

The Government provision contracts having been all renewed, the slaughtering season is opened here, at a rate without example; cows of our hundred weight bringing the enormous price of thirty-four shillings in the hundred, and other denominations in proportion!!!

On Saturday the guards of this city were mounted by detachments from the Attornies and Drack Yeomanry Corps: these were yesterday noon relieved by the Stephen's-Green Division, which last were, at four in the afternoon, relieved by the regulars of the garrison, returned in the field exercise of four days.

On the 9th. In consequence of the recent discovery of an attempt to establish a Society of Irishmen in this town

The privateer Le Castor, belonging to St. Maloes, Captain Lerreda, has captured the Resolution, belonging to this port, laden with Salt, and has carried her into Roscoff.
