Major-General Barber, of the Royal trith Artillery, arrived from Tarbert on Monday lait, where he found the Artillery under Captain Jackson, in perfect good order-and yesterday, on inspecting the Limerick Light Brigade, commanded by Captain Crawford, was pleafed to declare they were in the highest state of discipline, and hi for actual fervice. Last Friday night, a numerous party of rebels, armed and mounted, broke into the house of Morgan M'Mahon, of Kildiano, in this County, Proctor to the Rev. Thomas Burgh, and not finding him at home, destroyed his furniture, and obliged his Son to give them up all his Tithe Papers, which they carried off and burned on the road.

The following melancholy circumstance occurred at Boherbue, in the liberties of this city, on Sunday last: - A Rec-carcher having provided himfelf with a quantity of arferic, mixed it up into a mais with flour, water and trencle, to be divided occasionally into pills; but having unfortunately indulged a little too freely in that most destructive poilon to man, whiskey, be dropped the handkerchief which contained the vailbine; which was foon after picked up by two bove, who militaking it for a fweet cake had it baked on a griddle, and diffribated a mong their companions—eleven persons are faid to have eaten of it, three of whom died in exernciating agony within an hour; three are fill in great danger; the others, in confequence of the exertions of fome humans gentlemen of the faculty,

are sapposed to be likely to recover. Druggifts and Aporhecaries should be very cantious to whom they fell arfenic, and every other fpecies of poilonous drugs.

The best antidore against the effects of artenic, after the flomach has been evacuated of its contents by oil, melted butter, or thick broth, is Hepar Sulphuris, diffolved in water, in the proportion of a drachm to a pint, of which the patient should drink a teacup full every two or three hours.
