LIMERICK.—NOVEMBER 1.

As the Legislature, in its attention to the hap-  
 piness of the Community, have thought proper  
 to prevent the Distillation of Grain, (see Pro-  
 clamations in the last page) thereby adding to  
 the flock of the Poor Man's natural Pond, we  
 hope no description of Traders will be found to  
 counteract the benign intention of our Rulers.—  
 The Countryman who pays even what is deemed  
 a high Rent for his ground, is amply compensated  
 by receiving 10s. a stone for Oats, and 1s. 7½d.  
 for Wheat; and no hope of Gain whatever,  
 should induce a traffic that involves the very ex-  
 istence of the Labourers and working Artificer.
