Admiral Lord Nelson, stating, that  
from Toulon had sailed; and that  
the moment of writing was in pur-

### LIMERICK, FEBRUARY 29.

It is rather singular, that no English Newspapers  
were received at our Post-Office last night,—tho'  
a Packet did arrive.

By a Gentleman just arrived, and who left  
Dublin yesterday evening, we are informed that  
the Packet of the 24th had been received, which  
completely contradicts the sailing of the Toulon  
Fleet,—the entire accounts being fabricated for  
Stock jobbing purposes.

The 48th Regiment of Foot are expected to  
proceed immediately to Ceylon.

His Majesty's ships Mermaid, Capt. Hollis, and  
Brilliant, Captain Page, having under convoy the  
outward bound West India Fleet, consisting of 48  
vessels, sailed on Monday morning from Cove.

On Sunday night last, the House of one Mal-  
cany, a poor Man, on the Lands of Partane, near  
Bilboa, was maliciously set on fire, and burned  
down, together with his entire effects.

A Meeting of the Governors of the House of  
Industry is to be held on Friday next, at Twelve  
o'clock, to examine the Treasurer's Accounts for  
the last year, and to appoint a Committee of Visi-  
tors for the ensuing year.
