 their Informations. May 25, 1805

A young woman named Margaret Bre-
 was disordered in her mind, threw
 into the river and was drowned; her body
 was found this morning.

At two o'clock this morning, four men went
 to the house of Patrick M'Nemara, Owen, at Park,
 and demanded his door to be opened, alledging
 that a deserter secreted therein, on being
 refused by a servant maid, they entered M'Ne-
 mara's room, gave him a stroke of a carbine,
 and laid his fire over his head, and caused him to
 go to a back yard, guarded by one of the villains,
 with a pistol, after which they beat him
 with a whip, and stole from a box, what
 he had intended for his rent;—one of the
 villains described as being in the dress of a
 soldier.
