are to return to-morrow, and next week intend to proceed for Galway.

We have pleasure in stating, that the Right Worshipful Mayor, and the other Magistrates, have come to a determined and most laudable Resolution of clearing the streets of Limerick of the groupes of Beggars which have long infested it,—the Poor-House is fully adequate to their reception, tho' its Revenues and Subscriptions bear no proportion to the necessary expenditures ;—during the Mayoralty of the present worthy Chief Magistrate he aided it by Fines, &c. little short of 100l. To carry into effect the present intention of forcing every Vagrant Beggar either to fly the City or, be lodged in the House of Industry, John Prendergast Smyth, Esq; has paid for such Bedding as may be wanted on the occasion. Nothing is now requisite effectually to accomplish this desirable object, but that the benevolent Public will not bestow their Charity on Vagrants, who might be usefully employed at many Public Works.

A Meeting of the Subscribers to the Female Orphan School, is to be held at One o'Clock on Tuesday next, at the School.—It is requested that the Subscribers to the Fund for Building a New School, may also attend.
