THE GENERAL ADVERTISER.

LIMERICK—OCTOBER 2, 1807.

Encouraged by the increased support of a widely extended circulation, the PROPRIETOR would but ill discharge his duty to the public, if he not at all times convey through his Paper, the real state of the country with temper and truth.

The intimidating hint of any modern alarmist, will pass away with the vapour that conveys it—The envenomed arrow seems to recoil on the assailant's shield—we are proud its irritating sting should there only find a resting place, never more to be aimed at a wanton agitation of the public mind.—We again repeat that the active exertions of the magistracy are adequate to put down the wretches who lately disturbed this neighbourhood. The event has shewn it;—sincerely would we regret, except under the most imperious necessity, the exertions of these gentlemen called on otherwise than under the Constitution. In our opinion, we were supported by a BEDFORD, and from the mild and paternal government of his grace of RICHMOND we have no apprehension—To conciliate and not to corrode is its peculiar nature—Guided by such authorities, our principles shall ever be, to unite in mutual affection every description of our fellow-subjects:—No narrow or selfish policy shall induce us to surrender this sacred wish—it was the pledge of our infancy—now grown vigorous by the fostering hand of public favour—we shall appreciate its value.

An exposition of its true interests the country shall always find in our columns—those who would mean to deprive us of our Constitution, whether they be designing miscreants or disappointed alarmists, shall from us meet the lash of reprobation.—Should the idle croaking of declining importance, attempt a further intrusion on the public, by indirect allusion—we shall not prevent its hastening fall, by paying it any future attention.

and those diplomatic charac- when they have consulted, countenances the reports which have the whole of the day, not only at the Court end of the town, among the most intelligent men in the city. Robert Watson, Richard Pepparo, Bart. Clanchy, Matthew Stritch, Patrick Murphy, and J. Carroll—Maunsells and Kennedy, Treasurers.

Committee of the Royal Club House, for the year commencing Sept. 29, 1807; viz—

The Recorder, Alderman Arthur Vincent, Rev. John Parker, William Wallace, Doctor Neligan, Rev. Thos. Shepherd, John Norris Russell, Edward Parker, Samuel Dickson, John Harrison, George Chapman—and Dennis Lenigan, Treas.

We understand that this respectable Society has procured a permanent Lease of the Club-House.

Kilkenny, Sept. 26.—On Sunday evening, about half a mile from this city. On the Callan road, a most atrocious outrage was committed on the person of P. Quigly, of Gozlinstown, farmer, by two ruffians, who waylaid him as he was returning home, between the hours of seven and eight o'clock; they gave him a violent blow of a stone on the head, which instantly deprived him of sensation. After repeating their blows, they robbed him of cash and paper money to the amount of 30 guineas, and then threw him for dead over a stile into an adjacent field, where he lay motionless until morning. Medical aid was applied, but he still lies under his wounds.
