

6th and 4th, and 2d & 3d bats, are under orders to embark. A report is in circulation respecting the demand of a Court Martial that Ministers intend to propose a bill for the late affair in Boulogne is reported to have said that it, in the House of Commons opposed such a motion Lord Gambier requesting an adjournment simply referred to the log-book of Lord Gambier's ship. A report received from the neighbourhood of the Rhine states, that he has 10,000 men, a competent proportion of artillery, and he was proceeding to besiege the town. The compliments paid him by the Emperor's public instrument, extensively disseminated by Bonaparte an Ordinance, demanded from Sweden the whole of the province, inclusive, they insist that that province for ever. The Diet of Ratisbonne, not yet opened, will, it is thought, be given to the Emperor, as to Russia, that he has declared, as to Sweden, that he will not accept of peace; but he will insist on the conditions. The Irish Militia Amendment, and the Irish Bill, were read a third time and passed. The whole of the Northern ports are in possession of the enemy.

WAR—JUNE 12.

It was generally reported in London, that the French, following up most ardently their success over the French had re-crossed the Rhine, and that the French army near Vienna, after a dreadful conflict, had driven a large number of prisoners, and having driven into such a situation that their retreat was inevitable. The French had driven the Prussians to a Gentleman in New-England, which are per- mitted to go in ballast. Harvey and Fisher, to whom the vessel is consigned:—they are, however, destitute of any public news. The New-York Evening Post of the 4th ult. contains the account of an horrid murder, committed at Raleigh (North Carolina) on the body of Mr. Patrick Conway, by a number of men who first robbed his house. One person concerned in the deed was apprehended.—Mr. Conway was an Irishman, of an amiable disposition, and generally respected.
