Letters from Lisbon of the 13th state, that the Por-
tuguese are inspired with the utmost confidence, as Lord
Wellington's military arrangements are developed. We
have had a letter from Cadiz of the 6th, stating, that
the British had complete possession of that City. Adm.
Purvis had 13 sail of the line—an 1 in the worst event,
the capture of the Spanish Navy was reckoned upon.

Colonel Carroll, that active officer, has sent to Lisbon
no less than 300 German Soldiers, who came over to
his quarters from the enemies station at Estremadura.

A Gottenburgh Mail, and German papers to the 15th,
arrive this morning. They have brought no intelli-
gence of importance.

A letter from Cadiz, by the packet, states, that the
French prisoners of Dupont's army, on board the pri-
son ships, are dying daily in great numbers.

Reports have been circulated in London and other
places, that serious riots have lately taken place in this
town and neighbourhood, we take this opportunity of
assuring the public, that such representations are with-
out foundation.—*Birmingham Paper*:

Dispatches were received yesterday from Lord Wel-
lington, dated Vizeu the 12th inst. No operation of
importance had yet taken place on either side.

The British & French positions in Portugal, are those
recommended in a pamphlet written by Gen. Dumouvier.

The outstanding licenses to import corn, meal, pulse,
and burr stones from France and Holland, have been
extended to the 18th of June.

The Tyrol is at length so far subdued that the French
have put their Conscription Law in force in parts of it.—
several bailiwicks of the Southern division of the country
have been united to the Adige, one of the departments.

The Grampus 50, was to sail this morning from Ports-
mouth, for China, with the Surat Castle, Alawick Cas-
tle, Anton, Bombay, and Royal George, under convoy.

The remains of Lord Collingwood arrived this day at
Greenwich Hospital, to lie in state; preparatory, it is
suppose, to a grand public funeral.

The two troops of 12th Lt. Dragoons which lately
arrived in Hanbury, returned to St. Martin Barracks.

We learn with regret, that the defect in his Majesty's
sight has increased so far as to leave him now in com-
plete darkness. His Majesty is said to have determined
to undergo the operation of couching, and which we
sincerely hope will have the happy effect of restoring to
him the blessing of sight.

The Meeting & the Livery of London, in Common-
Hall is postponed until Friday next.

Limerick, May 2.

Inspecting Field Officer of the Limerick District, in

The house of John Parker, Esq. of Cahara-Lodge,
near Glin, in this County, was, on the night of Thursday
last attacked, the windows demolished, the door forced
open, and articles of furniture and farming utensils bro-
ken;—the fellows also beat five labourers who were in
the premises, for the purpose of ploughing and tilling
the farm, and charged them to quit the neighbourhood;
the attention of an active Magistrate was directed to
find out the depredators, but as yet without effect.

Yesterday evening, Mr. John Cantrell, High Consta-
ble, apprehended Mich. Moyler, who is charged with
different robberies in the City of Limerick; he is accused of being the associate of the three persons
who were capitally convicted at the last Assizes, and
hanged, for the murder of John Neill, at Wighfield;
and it is supposed that he is the last of that party re-
maining in the South of Ireland. The activity of Mr.
Cantrell, not only on this occasion, but in every other
instance, has been conspicuous; and, except a trifling
salary as High Constable, he receives no benefit, nor
does he participate in Rewards frequently offered for
apprehension of villains:—we hope, that the zealous
manner in which he discharges his duty, will ex-
