The debate on this subject derives its principal interest from each by Mr. Sheridan, in which, among other sical amusing observations, he notices the Shad-Magistrates, "who, in their wisdom wanted to find, late atrocious occurrences, a Popish Plot to all Protestant Publicans!"

Mr. Perceval and Lord Wellesley on the subject

The happy imagery and cheerful figures so aptly in-  
troduced by Mr. Lancaster, in his animated and instruc-  
tive detail were agreeable resting places to his attentive  
hearers; they denoted in the suavity of his manners the  
internal composure of a virtuous mind.

He will produce as an evidence of the wonderful  
effects of his plan, a few boys from one of the public  
schools of this city, to whom some attention has been  
paid since his arrival here.

On Monday next it is proposed, that the numerous  
advocates of this system will meet at the Commercial  
Buildings, at 12 o'clock, to take into consideration the  
establishment in this city of a school, on the liberal  
and enlightened plan so successfully adopted in the dif-  
ferent places Mr. Lancaster has hitherto visited.

In our next we shall give the public a copy of the  
beautiful Poem, entitled, "Reflections at the close of  
the year 1811, and on the beginning of the Battle of  
Instruction," occasioned by the extraordinary attacks  
latterly made on the Lancastrian System of Education.

### AGRICULTURISTS OF IRELAND.

**THE** Proprietors of the FARMERS' JOURNAL, a  
Weekly Newspaper, (price 8d.) published every  
Monday in London, beg leave to state that, besides the  
public Occurrences of the Week, selected, compressed,  
and arranged, with care, this Paper contains a more  
comprehensive and correct statement of the Markets  
throughout Great Britain, than any other publication,  
each brought down to the latest possible date, and those  
of London to the hour of going to press. The prices  
of Live Stock, of Wool, of Butter and Cheese, and of  
Hops, and other articles, disposed of at the different  
Fairs, are regularly noted; and Monthly reports of the  
progress of the different branches of Husbandry in the  
various Counties are inserted. The proceedings of Agri-  
cultural Societies, their Fetes, their Shows, and their  
Premiums, form a leading feature; and timely notices  
are given of all sales of choice and peculiar Breeds of  
Stock, as well as the result and the prices they sell for.  
One part of the Paper is exclusively devoted to *Original  
Communications on Agriculture*; and in this branch  
the Proprietors have the honor of numbering many  
Correspondents that stand pre-eminent in public esti-  
mation, for Intelligence both in theory and practice:—  
The names of Lord SOMERVILLE and Sir JOSEPH  
BANKS have embellished their pages; and they could  
mention others of celebrity if they had the same per-  
mission to use their names that they have to give their  
labour. It was the first object of the Proprietors to  
establish a cheap and compendious mode of diffusing  
through the Island, a Body of Practical Knowledge on  
Rural Affairs, by opening a channel whereby Agricul-  
turists, though distant and unacquainted, might be en-  
abled to communicate with and instruct each other; and  
and at the same time to form a Manual of the relative  
Prices of the Produce of the Soil in all the varieties of  
situation, season, and circumstance. More than four  
years indefatigable exertion have crowned their endea-  
vours with success, and given

They are now ambitious that it should be known in  
IRELAND, where the spirit of improvement is so laudi-  
bly active; that the Agriculturists of the sister Island  
may benefit by the growing knowledge of England,  
Scotland, and Wales, and they, in their turn, enrich the  
pages of this Publication with the result of their Dis-  
coveries and experience, for the general good of the  
United Kingdom.

Orders received by the Post-Masters in every Post-  
Town in Ireland and by their Agents the Clerks of the  
Roads; and Communications from Correspondents will  
be thankfully acknowledged and attended to by the
