LIMERICK, AUGUST 18.

Second Edition—Chronicle-Office.

Four o'Clock.

The London Papers of Friday & Saturday have been received by Express.

The Official accounts containing Lord Wellington's Dispatches have not yet been received.

The non-arrival of the *Fanny* cutter keeps us still in a great measure, in the dark, as to the late important events in Spain. A variety of reports were therefore, as might be expected, in circulation yesterday, and to be founded on private letters received by the *Sparrow*. Of the unsuccessful attack upon St. Sebastian, however, the details are more circumstantial, and, unhappily, rather more lamentable, for we have been furnished with the following list of killed and wounded, which, so far as it goes, will, we fear, be found tolerably accurate:

In the Engineer Department.

Sir Richard Fletcher, chief engineer, severely wounded, lieut. Lewis, ditto, and a prisoner, lieut. Machell, killed, capt. Lewis, lost a leg, lieut. Ried, wounded.—38th Regiment, lieut. and adjutant Hopper, killed—lieut. Canale, ditto.

But the regiment which suffered most severely was the Royal Scots; of 429, who marched to the attack, 298 were killed or wounded, among these was the whole of the grenadier company. The following is the list of the Officers killed and wounded in this gallant corps:

Killed—Major Peter Fraser, cap. Cameron, adjutant Cluff, lieuts. Samuel Clarke, Francis Massy, John Anderson.

Wounded—Capt. Arquinbeau, lost an arm; Logan, ditto; Buckley, severely; R. McDonald, ditto; James Stewart, in two places, slightly; Lieut. O'Neil, severely, and Eyre, ditto and prisoner, ensigns Hoskins, do. A'wane, do. and prisoner, Reynolds, do. and volunteer Miller, do.

To the above list we have to add the name of Lieutenant Col. Campbell, who commanded the Royal Scots at the battle of Vittoria; he was also severely wounded at St. Sebastian's, but is doing well.

The Royal Scots are now commanded by the Senior Captain (Mullin) in the absence of Lieutenant-Colonel Barnes who is on his way to join, after having recovered from the wounds he received in the battle of Salamanca.

The following is a copy of a letter, from an Officer engaged in storming St. Sebastian—

“Near Sebastian, 17th July, 1818.

“On Sunday the 25th instant, we stormed Sebastian; on entering the breach, we found the enemy so well prepared for our reception, that we were obliged to retreat with the loss of 300 killed, wounded and taken prisoners, including 14 officers killed or prisoners. However, in a few days we are again to attack the place, and are resolved at all events to take it.

“N. B.—Captain Taylor of his Majesty's *Sparrow* has lost his leg; Lieut. Dunlop, a quarter-master's mate and fifteen seamen wounded; besides four killed out of thirty-six that were sent on shore from the Commodore's ship.”

The *Growler* American privateer, of 15 guns and 60 men, is taken by the *Electra* sloop of war, and sent to Newfoundland.

The following is an Extract of a Letter from an Officer.

“Off St. Sebastian's, 30th July.

“An Officer from Lord Wellington had arrived. A severe action took place on the 28th, which lasted from half past twelve to five. Soult assailed with about 35,000 men, and was invariably driven back;—he must retire. Lord Wellington had only three divisions, the 3d, 4th, and 6th, and some Spaniards, but he had about 20,000 men. The loss is great
