warded by the Right Rev. Doctor Poynter, Apostolic Vicar of London, to the Catholic Bishops and Vicars Capitular of Ireland, we are firmly of opinion, that the said Rescript should not be obeyed by the Catholic Church of Ireland, because we consider its principles dangerous to our Holy Religion, and contrary, not only to the decision of the Irish Dishops, but also to the express sentiments of the sacred College Itself, promulgated in the year 1805. That we are determined to hold no communication whatever, on this unauthorised document, with Monseigneur Quarantotti or Dr. Poynter, solemoly protesting against any Lay interference with the go-

That we consider ourselves particularly called on, to defend and preserve the sacred deposit of unity of Faith and the spiritual supremacy of our Chief Pastor, because our brave ancestors, while detending their Civil Rights within the walls of Limerick, obtained the guarantee of a solemn treaty for the free and full exercise of the ancient Religion of Ireland.
