Yesterday, at the Quarter Sessions, James Reilly, coach-maker, was convicted of assaulting John Hanna, an assistant coach-maker, on the 20th of last, and sentenced to be whipped on Saturday through the most conspicuous parts of Dublin, and to be confined 12 months.

10th AUGUST, 31—On Monday arrived his Majesty's sloop Brisk, Captain Higman, from a cruise, a re-captured vessel. On Sunday the Brisk tried at some distance two vessels, one of whom suspected to be a privateer, which proved to be a case—as she neared them she perceived that the privateer was in the act of plundering the large ship, directly made off. On the Brisk taking possession of the ship, she proved to be the Harman of Genock, bound to Quebec, with a most valuable cargo, and was captured off the Saltee, by the force of Neufchatel, American schooner privateer, had taken out a considerable quantity of baits, and put a prize-master and six men on board, to take her into L'Orient, for which port she sailed herself. She has made several captures, and after plundering, destroyed them all.

We regret to state, that a fine ship, from Liverpool to Quebec, with a cargo worth near 100,000, was burnt to the water's edge. The captain, passengers, and crew, had merely time to step into a boat, and after some time were picked up by a vessel and brought in here. This morning sailed the Nimble cutter, with the Mars transport, having on board the 87th regiment, for Portsmouth.
