A very daring robbery took place in Tralee on Saturday night—the stable of Mr. Raymond, of the Tipperary Regiment, was broken open, and a valuable horse, bridle and saddle stolen therefrom—In the stable was a second valuable horse, but so wicked that it is dangerous to approach him; so much so, that the groom is generally under the necessity of taking some apples and giving them to the beast, a circumstance which the thief must be aware of, as apples were found in the stable, tho' the horse was not taken.

Another Grand Exhibition of Fire-Works.—Signior Magleishi intends on Thursday night, to exhibit his Fire-Works in this City, and from the preparations he is making it is presumed that they will far exceed any thing of the kind ever seen here.—See Adv.

The Treasurer of the House of Industry acknowledges the receipt of Four Pounds from the Right Worshipful Edmond Morony, Esq. Mayor, being Fines inflicted by his Worship on Forestallers. The Mayor sent to the House of Industry, yesterday, a large quantity of herrings and other fish.

Yesterday the Mayor Committed to the House of Industry, several vagrants and beggars who have been in the constant habit of prowling the streets—Mr Bizley, Confectioner, in Patrick Street, on perceiving his Worship engaged in so laudable a pursuit, requested that he would accept of a Guinea, for their support in the House of Industry, which his Worship handed over to Treasurer of that excellent Institution. The Mayor is determined to persevere in clearing the Streets of beggars, but as the Funds of the House of Industry are limited, it is hoped that Mr Bizley's example will be generally imitated by the inhabitants of the City.
