On Saturday evening last at the early hour of six  
o'clock, ten or eleven fellows armed with Bunder  
knives and Pistols, entered the House of Thomas  
Powell, Esq. late of the City Limerick Regiment, at  
Sallymount, near Castle Connell, (to which he had  
just removed his Furniture), and robbed it entirely  
of almost every article of value. Mr. Powell being  
from home, the robbers demanded from Mrs. Powell  
the keys of the Garden which they knew right well  
contained the Family Plate but she not complying,  
they removed the box to the Garden and rifled it of  
its contents; they then took from Mrs. Powell her  
Gold Watch and Gold Trinkets, also two suits of  
new Mourning Clothes and various other Wearing  
Apparel and threatened to take away her life if she  
alarmed the neighbourhood—One of the villains  
finished their proceedings by removing a shirt of  
Mr. Powell's which was airing at the fire, and deli-  
berately put it on, whilst the rest retreated  
from the House, through the fields, in the direction  
of the port. There is no doubt but the perpetra-  
tors of this daring and extraordinary outrage were  
well acquainted with the interior of Mr. Powell's  
House, and we trust, that from the exertions mak-  
ing they will be brought to punishment. Rewards  
for their apprehension are offered in our Paper this  
day—See Advt.
