The public mind in our neighbourhood has been for some days considerably excited by a violent attack of the gout on the Earl of Donoughmore. His Lordship, however, had the best medical help, and with proportionate success; and we are happy in now congratulating his friends on the removal of his disorder. The gout flew from his feet into his stomach, and thence into his bowels; and the symptoms were at first so alarming that we hesitated at stating the matter to its full extent.—Clonmel Herald

We have much pleasure in stating that the recovery of the Earl of Donoughmore is progressive, and, we should hope, now past any chance of interruption. His Lordship has been able to remove from his bed chamber and to take some nourishment of rather a substantial quality, in company with his brother, Mr. Christopher Hutchinson, who has been with him since the commencement of his illness. The skill of the Noble Lord's present medical attendant, Dr. Eagle, is very good security against any recurrence of the attack, so formid- able in its first symptoms; and to that gentleman's profes- sional ability he has been greatly indebted for passing safely through its violence, until the arrival of Mr. Crampton, who sanctioned, by his judgment, what Dr. Eagle would have adopted, in the event of his not having been joined by auxiliary skill. We are extremely glad the Noble Earl is now in such safe hands.—Correspondent.
