

But it appears that on the first correctly graduated thermometer north, and hanging against a wall low, the mercury then stood, at noon, at 90, precisely.

Meeting of the Mallow Bible and Society, was well attended last Report of the Committee it is another interesting matter, that Testaments, with many Prayer books, had been put into circulation, during the last year, and from the friends assembled, it is hoped to continue to be done.

On the night last, Robert Leslie, jun. of his tenantry, proceeded to the madda, in the neighbourhood of Kerry, and apprehended Timothy with the murder of Mr. Charles on a grousing party some time ago. The Magistrate also committed to prison, Michael Teigh, charged with the burning of Mr. James Wall, in the year 1809. Those two offenders were kept in jail for some time, and their fate was a great satisfaction to that of which they were a terror. — The companions of the noted Mulvihill, were committed for the same offence. Too much cannot be given to Mr. Leslie, for his exertions in preserving the country, and bringing to justice the such horrid murders as those

following convicts were brought from Ennis, by a detachment of the dragoons, on their way to Cork for board the transports for Bonaparte. — Mr. Morgan, John Cunneen, John Mara, Edward Fitzgerald, Patrick Doherty, Patrick Grames, Dan. Hogan, James Lee, Catherine and Marine M'Carthy.

Potatoes continues extensive in the canal boats seem now to be in the conveyance of them, and contracts have been entered into with the boat-owners, for the carriage of potatoes from the banks of the Shannon to Limerick, week to come. The partial scarcity of potatoes some time since in our market, was owing to the farmers being employed in their rural pursuits, and not from any want of potatoes before mentioned; the country is now assured, abounds with them. The West of the County of Limerick produces potatoes in such quantities, that they are sold to supply themselves gratis, not only for consumption in their families, but to be sold from market places; this we are assured of.—The price this day is, 1s. per stone.

Some butter, fraudulently made up, was seized by the Right Worshiptul John Mayor, on Monday, and sent to the workhouse. His Worship also seized some bread, for not being properly filled, and sent it to the Alms-house.
