Intended Colony at the Cape of Good Hope.

The following Official Circular has been issued
 from the Colonial Department, to answer to appli-
 cations for information on the subjects therein relat-
 ed to:—

Downing-street, London, ———

Sir—In reply to your letter of the ———, I am di-
 rected by Earl Bathurst to acquaint you, that as the Circular
 Letter distinctly specifies the nature and extent of the assis-
 tance which will be granted to individuals who may be
 allowed to proceed as Settlers to the Cape of Good Hope,
 together with the conditions under which alone that assistance
 can be given to them, it is only necessary to refer you to
 that document, and to add, that no proposal can be accepted
 which is not framed in conformity with the offer of His Ma-
 jesty's Government.

With reference to your particular inquiries respecting the
 mode in which the views of the Settler may best be attained,
 I have to acquaint you, that it is not in Earl Bathurst's
 power to communicate to you that species of information,
 which can most properly be afforded by the practical agri-
 culturalist, or obtained upon the spot.

The Settlers will be located in the interior of the Colony,
 not far from the coast; and in allotting to them the lands
 which Government have agreed to grant to them, their in-
 terests and their wishes will be consulted, and attended to,
 as far as may be consistent with the public interests of the
 Colony.

The Settlers will be enabled to purchase a limited quantity
 of agricultural implements in the colony, at prime cost; al-
 though they are not debarred from taking with them a mo-
 derate supply of these articles, as well as necessaries; and
 they will find no difficulty in purchasing seed corn in the
 colony.

The settlers will have habitations ready for their re-
 ception.

The person under whose direction a party of settlers pro-
 ceed, is at liberty to secure their services by any legal agree-
 ment into which they may think proper to enter.

The new settlement will, of course, be governed according
 to the laws in force in the colony.

In conclusion, I beg to observe, that it must be left to
 the persons taking out Settlers, to form their own opinion
 as to the amount of the pecuniary means with which they
 should be provided, in order to support the persons placed
 under their directions, and ensure the success of their under-
 taking.

I am, Sir, your most obedient Servant.

Last Saturday a respectable Gentleman of this
 City, who had been at the Limerick Assizes, left
 that town in the morning on the Mail Coach, in
 apparent good health, with the intention of return-
 ing home. On arriving at Doneraile, he came
 off the Coach, saying he would walk on, but has
 not since been heard of, though every enquiry has
 been made throughout the Country. His family
 are, of course, in great agitation and apprehen-
 sion for his personal safety; if therefore any infor-
 mation respecting him can be communicated to this
 office it will be immediately made known to them.

We have just learned that the above unfortunate
 Gentleman was found dead in a field near Done-
 raile, on Sunday last, in a putrid state, with part
 of his right shoulder and arm eaten off by either
 rats or dogs—his watch and some money was found
 in his pockets: he appeared to have been making
 some exertions previous to his death, as parts of
 his clothes were taken off and lying near the body.
 His name is Croan, and was an opulent Butter
 Merchant. It is supposed he died of Apoplexy.
