**JANUARY LAST.**—Pine Timber, 4db. to 6d.  
to 1s. 6d.; Red Pine, 8d. to 9d.; Deals,  
as in quality; Staves, £33 to £35 per  
es, 27s. 6d. to 29s.; Wheat, 4s. 10d. to  
1s. per lb.; Soap, 6d.; Tobacco, 8d.;  
o 3s. 9d. per gallon.

The result agrees very nearly with the observa- tions of their late respected citizen, Doctor Long- field, who found his Observatory in Patrick- street to be 33, 53 West. From the authority of such highly qualified Gentlemen, we may conclude that this point is now fixed without error, and therefore, the Greenwich Time can be procured by such Masters of Ships in that Port as may have occasion to correct their Chrono- meters.

We understand the period for carrying on the Newcastle Races this year will not be determined on until it is first known at what time his Majesty intends honouring the South of Ireland with a visit, on his way to Killarney.

On Saturday, the Mayor seized a quarter of beef, and several quarters of blown veal, which he distributed between the Mendicity Association and House of Industry: To the former he also sent six baskets of vegetables, seized for being offered for sale on the Sabbath. The attention of the Mayor to the markets, and enforcing a due observance of the Sabbath, has been productive of much good, and entitles him to great praise.

A. B. C.'s Letter, in reply to Mercator, will be found in first Page.

**BIRTH**—On Sunday last, (and not on Tuesday, as previously stated,) at Castle-Connell, the Lady of Sir John Alleyne De Burgho, Bart. of a son and heir— On Sunday, at his house, Glentworth-street, the Lady of Henry Bowles, Esq. of a daughter—At Ballyvorda, Co.
