

THE ENSUING YEAR,
EDITED BY MR. THOMAS HOLT;
APPERTAINING GENERALLY TO THE
PROVINCE OF MUNSTER.

... necessity that exists for a correct Local ALMANACK.
 ... assumed, will not be questioned:—the perpetua-
 ... in the published Almanacks has been productive
 ... convenience, and has rendered them largely injuri-
 ... interests they were intended to promote. The im-
 ... and corrections now in contemplation are
 ... Table of Local, or generally interesting
 ... times High Water, calculated according to the
 ... Place—the Rising, Sounding, and Setting of
 ... and other Planets—the Occultations of the
 ... Stars—the Aspect and Configurations of the
 ... bodies—a Gardener's and Farmer's Calendar—
 ... Towns and Noted Places in Munster, with
 ... from Cork—a more regular and systematic
 ... of the Ecclesiastical, Civil, Naval, and Military
 ...—and many useful Tables not hitherto noticed
 ... the kind.

... the anxious wish of the Editor and Publishers
 ... an Annual Compendium of real value, and as a
 ... reference, any suggestion tending to this end, prior
 ... of November, will meet every attention: their
 ... ty and Correctness, and they indulge a hope that
 ... may, in a great measure be attained.
