WEDNESDAY, APRIL 23.

The debate on the Roman Catholic Question, the issue of which has taken so extraordinary a position, appears in a SUPPLEMENT of TEN COLUMNS, and is given gratis with our publication of this day.

Riverstown-house, near Croom, the property of Samuel Bennett, Esq. was set fire to, and totally consumed on Monday night, by the insurgents. The loss is estimated at £700.

Yesterday morning, a party of insurgents turned up some ground at Oatfield, near this City, the property of the Widow Connell.

Yesterday, in consequence of information having been lodged before the Mayor, his Worship lodged in Jail, John Cronin, charged on oath with the murder of Thomas Hoskins, Esq.

Early on the morning of Friday last, several armed ruffians attacked and broke into the lodge belonging to Mr. Sandes, on the lands of Morgans about three miles from Askeaton, in this County, where his son, William Sandes, Esq. of Kilco-vane, Queen's County, slept, and who had the day previous received some rents out of his father's property, in this County: three of the party rushed into the room, and being armed with a blunderbuss, pistol and bayonets, assaulted and compelled Mr. Sandes to deliver up, in bank notes and money, £110, and a case of valuable pocket pistols, with which, after violent threats, they absconded. Mr. Sandes returned to this City and lodged informations before the Rt. Worshipful D. F. G. Mahony, Esq. Mayor, of the foregoing burglary and robbery; and steps are taking which, it is hoped, will lead to the discovery of the fellows concerned in this outrage.

On Sunday night, the house of Castlesion, above Dromcolloher, in the County Cork, was attacked, the windows and doots demolished, and a large stack of hay consumed in the field convenient, the property of a farmer named Sullivan.

On Monday night, a large field on the lands of Glanstar, was turned up by whiteboys, and threatening notices put up in different parts of the County. The herdsman of Mr. Samuel Upton, jun. was sworn to quit.

Yesterday evening, between 6 and 7 o'clock, a party of ten Whiteboys, dressed in shirts, &c. attacked two houses, in the neighbourhood of Ballystein, and destroyed all the furniture, cutting the feather beds, and scattering them about. They would have murdered the owners but that they made off for the military on their appearance.
