ROYAL EXCHANGE ASSURANCE,
Established by Royal Charter and Act of Parliament,
In the Year 1720,
FOR ASSURING BUILDINGS, GOODS, AND SHIPS FROM FIRE, AND ALSO FOR THE ASSURANCE OF LIVES.

Office, No. 117, George's-street, Limerick:—

WHERE Assurance on Lives, and against Fire, can be sooner and easier effected than at any other Insurance Establishment in Ireland: Fire Policies are issued at once, without consulting Directors; and Persons, whose lives are to be assured, have but to appear before the Agent, who does not put the party to the trouble and expense of procuring Medical Certificates and other documents, which are indispensable at other Offices.

Lives Insured as high as £10,000; and at the advanced age of Seventy-five years.

Persons whose lives are assured by this Company, are allowed to pass in decked vessels from one part of the United Kingdom of Great Britain and Ireland to another, and to and from the Islands of Guernsey, Jersey, Alderney Sark and Man, and also to pass, in time of peace only, in decked vessels, from British ports and places to any foreign port between Flushing and Ushant, without extra premium and without being subjected to apply, as heretofore, to the Office, for special permission.

Manufactories, Buildings, and Goods of every description—Farm Houses, Cattle, and Haggarts—Ships in harbour, in dock, or while repairing, Insured at a moment's notice.

The wealth and experience of this Company enable them to Insure Mills, and other special risks, at the safest and most moderate Premiums.

The Persons Insured at this Office do not depend upon an uncertain fund or contribution—are neither subject to covenants, nor liable by Act of Parliament, to make good the Losses which may happen—the real Capital Stock of the Corporation being an unquestionable Security to the Assured. By this salutary system only can the Public be afforded substantial protection for property, and the stability of an Insurance Company permanently secured.

Losses are paid, in full, without delay; and documents for Claimants are prepared gratis.

Bills of Rates, and every other information respecting Insurance given by

JAMES MORGAN, AGENT,
No. 117, GEORGE'S-STREET, LIMERICK.

The importance of the effective Fire Engine Establishment which is kept up by this Office, is properly appreciated by a discriminating Public.

It has been the object of this Institution to combine the advantages and to remedy the defects of other Establishments; and greater benefits are secured to the Public, both in the Life and Fire Departments, than have been offered by any other Society.

In the Life Department, four-fifths (or 80 per cent.) of the estimated profits will be added every seventh year, by way of bonus, to the Policies effected for the whole term of life on lives insured under the age of fifty, or will be applied in reduction of future annual premiums, at the option of the Assured.

In the Fire Department, an equal apportionment of four-fifths (or 80 per cent.) of the profits on Policies continued for seven years, will be septennially allowed to persons who have paid seven years' premium in a single sum, or by annual payments. The remaining profits in both Departments will be transferred to the Subscribed Capital, and preserved untouched to form a continually-encreasing guarantee to the Assured.

A prompt payment of six years' premium entitles the Assured to the benefit of a seven years' insurance.

All claims on the Society paid without deduction or discount; and the Assured have the option of settling disputed claims by Arbitration.

Parties by obtaining the settlement of a loss, do not lose their right to participate in the profits.

Persons Assuring their lives in this Office may cross the sea in decked vessels between the Elbe and Brest, without any extra premium being required.

RICHARD BODKIN, Agent.

Who is empowered to receive proposals over the age of 70, and by whom the greatest facility is given to persons effecting Insurance.

In the FIRE Department there is no charge for Policies transferred to this Office.
