Long, indeed, will the memory of this amiable young lady be cherished by those who knew her worth—interesting, religious and talented, she promised ere long to realise the fondest expectations of her family and friends; and during her illness and particularly in her last moments, by her resignation and fortitude shewed how effectually virtue and religion, when early impressed on the young mind, can deprive death of its sting and the grave of its victory.

Persons effecting either Life or Fire Policies, with the ALLIANCE COMPANY, will enjoy the following important and striking Advantages:

I. Perfect Security.—The Capital of £5,000,000 under the immediate management of the above Board of Directors, is pledged for the security of the assured.

II. Honor and Liberality in the settlement of Losses.—The well-known character of the Members of the Direction, affords, on this head, every possible security.

III. Moderate Premiums of Assurance.—The Rates of the Premiums of Assurance, for the greater part of Life, will be found lower than those in use in most respectable Offices. The Premiums of Assurance on Fire are the same as those which are demanded by the first class of Assurance Companies.

IV. Participation of Profits by the Assured, both in Life and Fire.—The Profits of the Life Department, appropriated to the Assured, will be applied either to the reduction of the rate of the future Premium to be paid on the Policy, or to the increase of the Sum assured on the Life, as shall be most agreeable to the Assured; the party to make his choice at the time the proposition for Assurance is made. The Profits of the Fire Department, appropriated to the Assured, will be distributed at the close of each successive period of Five Years, in the form of a per-centage, on the Premiums which have been paid.

V. Parties who obtain the settlement of losses from Fire are not thereby deprived of their right, to participate in the profits of the Company.

VI. The extended scale on which the Society is formed gives rise to the expectation that the Profits to be divided will be large.
