On Thursday, a novel suit came before the Sessions in the prosecution of Morgan Kennedy and two more, at the suit of the Vicars Choral of the Cathedral. indictment was framed under a new statute, the 7th of the present King, chap. 60, generally known as Master

Ellis's Act, for the punishment of persons engaged in the

levelling and dilapidating houses. This practice has been

carried to a most ruinous extent in London, but in the

onence was committed two days before the Act had received the Royal Assent, and the traversers were accordingly acquitted. The man who was apprehended as one of the party that attacked Mr. Synge's house, in the County Clare, is stated to have died of his wound. Two fellows were detected this morning in the act of

pulling up potatoes by the stalks from a Gentleman's

garden, near this City, for the purpose of stealing them.

They have been committed for examination.

Moose Deer were dug out of the ground at Graigue, in this County, on the property of Mr. Dwyer, of Liskennet. The countryman, named Gorman, who discovered those curious relics, did them some injury, from his ignorance of the value, which is attached to them by the Antiquarian and the Naturalist. They are now in the possession of Mr. Dwyer, of Liskennet. THE DRAMA. - The new and popular piece of Paul

Paul Pry found an excellent representative in Mr. Talbot; the singular habits and inquisitive qualities of this extraordinary being, assumed a more decided character in the admirable management of such a deserved favourite. Mr. Forde's personation of Harry Stanley, displayed all the tact and ingenuity of an impassioned lover, resolved to hazard anything for the lovely object of his affections. Mrs. Forde, as Eliza Hardy, was highly interesting, and evinced a fund of arch humour and natural playfulness, in which this Lady is so peculiarly happy. Colonel Hardy, in the person of Mr. James, was sustained with considerable energy.
