BITABLE MIRACLE.—The 15th day of August is celebrated by the peasantry of South Munster, as the day when they are best able to form an opinion concerning potato crops; on trial, horror and dismay was the face of every man—the long prevailing drought of the last Summer had so dried up the soil, and the seed potatoes, that famine and scarcity were in every man's mouth. The Almighty Ruler of all things was pleased to send his divine interference, and a most plentiful and luxuriant supply. We are considering it *miraculous*, and to be out of the power of man, when we contemplate the advanced season of the year, and the unusual progress of vegetation at the time. "O! that men would, therefore, praise the Lord for his goodness, and declare the wonders he doeth for the children of men. O! how plentiful is his goodness which thou hast laid up for them for thee: and that thou hast prepared for them for thee, even before the sons of men. The angels will consider this and rejoice: and the mouth of wisdom shall be stopped. Whoso is wise will understand these things: and they shall understand the kindness of the Lord."—PSALM 107. J. F.

THE LITTLE POOR FUND.—The Lord Bishop of Limerick handed me 1/ his Lordship's weekly subscription in addition to 6/ already bestowed on this Charity. The number of Pauper Patients are maintained during the week, being 229 less than the former, owing to a decrease of the donations since the 16th inst.—the noble Charity must fall to the ground, unless we quickly contribute to its support

DEATHS.

At Arran-Hill, in the County of Tipperary, on the 20th instant, in the 79th year of his age, Thomas Stoney, Esq. Undeviating rectitude, in his intercourse with mankind, distinguished his character—as a Husband and Parent, he was faithful and affectionate—as a Friend, steady and sincere. To his neighbours and the passing stranger, he was ever ready to offer an unaffected hospitality, characteristic of his country. He held the Commission of the Peace for more than half a century, during which long period he exercised the duties of his office with patience, lenity, and discrimination; and when coercive measures were found necessary to curb the insurrectionary spirit that pervaded the district in which he resided, he was evermore observed "tempering justice with mercy," never forgetting the wide distinction between accusation and proof, between suspicion and guilt! by which means he won the gratitude and veneration of the peasantry around him, which was amply testified by the vast concourse that paid him the last tribute of respect.—In his last hours, tho' a lingering and harassing illness had wasted his frame and impaired his intellect, yet when the Gospel of pardon and peace was occasionally read to him, his bodily sufferings seemed to be suspended and his faculties restored, whilst he listened to the gracious invitation of a crucified Redeemer, "Come unto me all ye that labour and are heavy laden, and I will give you rest;" and may we not be permitted humbly to hope, that his spirit has obtained that reward which is given to those who are brought, even at the close of the day, into the Vineyard of the Lord
