THE LIMERICK ROYAL EXCHANGE ASSURANCE,

Cranna House, December 22, 1826.
Sir,—It is but just of me publicly to acknowledge the promptitude with which the Royal Exchange Assurance Company discharged my claim of £600 Policy No. 10,423, after I had furnished you with necessary documents.—This is one of the many proofs of the respectability of your Directors, and the rectitude of their Representative.—I also wish to take this opportunity of offering you my acknowledgments for your attention to my interest on a former occasion: I ascertained that a person who is insured for me at your office, was younger than the age at which he had been insured; and thereupon you not only reduced the premium, but returned the overplus money paid on the increased age.

I am, Sir, your obliged,
H. GOULD

To Mr. JAMES MORGAN, Royal Exchange Assurance Office, Limerick.

WHERE Assurance on Lives, and against Fire, can be sooner and easier effected than at any other Insurance Establishment in Ireland: Fire Policies are issued at once, without consulting Directors. Persons, whose lives are to be assured, have only to appear before the Agent, who does not put them to the trouble and expense of procuring Medical Certificates and other documents which are indispensable at other offices.

Lives Insured as high as £10,000; and at the advanced age of Seventy-five years.

Persons whose lives are assured by this Company are allowed to pass in decked vessels from one part of the United Kingdom of Great Britain and Ireland to another, and to and from the Islands of Guernsey, Jersey, Alderney, Sark and Man, and also to pass, in time of war, only, in decked vessels, from British ports and ports of any foreign port between Flushing and Ushant, without any extra premium, and without being subjected to a surcharge, heretofore, to the Office, for special permission.

Manufactories, Buildings, and goods of every description—Farm Houses, Cattle, and Haggarts—Ships, in dock, or while repairing, insured at a moderate rate.

The wealth and experience of this Company enable them to insure Mills, and other special risks, at the most moderate Premiums.

The persons insured at this office do not depend on an uncertain fund or contribution—are neither bound by covenants, nor liable by Acts of Parliament, for good the losses which may happen—the real Capital of the Corporation being an unquestionable Security to the Assured:—By this salutary system only can the public be afforded substantial protection for property, and the stability of an Insurance Company permanently secured.
