Clonmel Feinaiglian Institution

REV. D. TWISS RIORDAN, A. B.
 MASTER.

AT the Half-Yearly Examinations held on the 19th
 and 20th of June, the Pupils particularly distin-
 guished themselves in the several objects of their studies,
 viz—Greek, Latin, History, Geography, French, Science,
 English, Use of the Globes and Arithmetic.

The system of education adopted in this school is such
 as cannot fail to produce the most satisfactory results,
 while it simplifies the principles of languages, so as to
 render them intelligible to the weakest capacity; it espe-
 cially exercises the understanding and excites a strong
 spirit of emulation and equity—to promote this desira-
 ble object the pupils are previously instructed in a regular
 course of English, which enables them to see at once the
 combinations and mutual dependencies of even the most
 complicated sentences, and wonderfully facilitates their
 acquirement of other languages. Examinations are held
 in June and December, to which the public are admitted.
 The greatest care and attention is paid to the health,
 morals and religious instruction of the pupils. The
 house is large and airy, with a beautiful play ground
 attached.

Terms for Boarders, 35 Guineas per annum.
 Vacation will end on the 21st July.
 Clonmel, Johnson-street, July 16.

CHARITY SERMON.

ON SUNDAY, the 5th of August next, 1827, in St.
 Michael's Chapel, at half-past two o'clock, the Rev.
 DR. O'DONOVAN, Professor of Rhetoric, &c. &c.
 Royal Catholic College, Maynooth, will preach the
 Annual Charity Sermon, in support of the Female Poor
 School, under the care of the Ladies of St. Clare. This
 School is conducted by a number of religious Ladies,
 who have devoted the last fifteen years to improve the
 condition of the poor Female Children of this City, and
 to their exertions are many now in a comfortable walk of
 life, indebted for being capable of instructing their own
 children, thus extending the blessings of Education and
 Industry through the humble classes of society. There
 are, at present, between three and four hundred children
 in the rooms, which are capable of containing eight hun-
