EDWARD PARKER, Clerk Peace. Dated this 7th day of April, 1830.

Surgeon GOSS, from London, is now in Dublin, and may be consulted every day, (Sunday excepted,) personally or by letter, at No. 6, Lower Merrion-Street, DUBLIN, from Nine in the morning until Two; and on Monday, Wednesday, and Friday, from Six in the evening until Nine.

Surgeon GOSS will leave Dublin on the 9th of April. IN THE MORNING OF LIFE, when the blandishments of passion "take the reasoning prisoner," it is an evil more to be lamented than wondered at, if, in the vortex of deceptive pleasure, the unhappy traitor against the laws of nature pays in lonely disappointment a fearful exaction for his rebellion, in the compromise of his mental as well as bodily powers. To all persons so circumstanced as to require the professional aid of men of experience, whose time has been for twenty years studiously and successfully devoted to the complaints arising from nervous debility, whether natural or acquired, GOSS and Co. proffer the most consulatory assurances. The youth who has enervated his frame by the strangely fascinating sin, which the poor victim of folly will too readily comprehend without further description, may find relief from his misery, and be kindly taught to regain his lost place in the scale of creation. The sufferer, who, from another extreme of indolence, has, with unashful forehead, wooed debility, may learn to renovate nature and repair his abused constitution. The man of pleasure, exposed to and suffering from Luas Venerea, however aggravated by malpractice of the quack, or the concealment from diffidence, may find a certain restoration; and finally, in cases where the delay of a connubial pledge has almost extended disappointment to despair, they offer to the married female those hopes which she can reasonably appreciate.

Messrs. GOSS and Co. are to be consulted, as usual, every day, at their house; and Patients in Dublin, and the remotest parts of Ireland, can be treated successfully on describing minutely the case, and enclosing a remittance for Advice and Medicine. No difficulty can occur, as the Medicine will be securely packed, and carefully protected from observation.

GOSS and Co. (M R C Surgeons) 11, Bouverie-street, Fleet-street, London. **Surgeon GOSS is under the necessity of leaving Dublin on the 9th of April, and therefore requests the earliest possible communication from those patients who may be solicitous for his advice.**

Notice to Mariners.

MULL OF GALLOWAY LIGHTHOUSE.

THE Commissioners of the Northern Lighthouses hereby give Notice, that a Lighthouse has been erected upon the Mull of Galloway, in the County of Wigton, the Light of which will be exhibited on the night of Friday, the 26th day of March, 1830, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the position of the Lighthouse, and the appearance of the Light, by Mr. Stevenson, Engineer to the Commissioners:—

The Mull of Galloway forms the southern extremity of the Mainland of Scotland, situate in lat. 54° 38' north, and in long. 4° 30' west. By Compass, the Lighthouse bears from the largest of the Scare Rock, W. 1/2 N. distant six miles; from Barrowhead, W. by N. 1/2 N. distant 18 miles; from the point of Ayre Lighthouse, in the Isle of Man, N. N. W. distant twenty-one miles; from the Calf of Man Lights, N. E. distant thirty-six miles; from the South Rock, or Kirwarlin Lighthouse, in Ireland, E. N. E. 1/2 E. distant 26 miles; and from Copeland Lighthouse, also in Ireland, S. E. by E. 1/2 E. distant 21 miles. The Light will be open or visible seaward from N. N. E. to N. W. 1/2 W. but the high lands of Dunman shut the Light from the view of the Mariner in coasting along the Portpatrick shores.

This Light will be known to Mariners as an **Intermittent Light**, suddenly appearing like a star of the first magnitude, and continuing in view two and a half minutes, when it is suddenly eclipsed for half a minute, thus producing its entire effect once in every 3 minutes. The Lantern is elevated 325 feet above the medium level of the sea, and in clear weather the Light will be seen at the distance of seven or eight leagues, and at lesser distances according to the state of the atmosphere.

By order of the Commissioners of the Northern Lighthouses,

C. CUNINGHAM, Sec. Edinburgh, March 9.
