and mire—for hours the road was covered with a host of
 pedestrians, an unbroken line of carriages, cars, and
 gigs, and numerous troops of equestrians. The County
 Limerick Band played at the Stand-house. The encamp-
 ment of tents and marquees was never so extensive, and
 the buzz of applause which echoed from the dense living
 mass upon the great hill as the race horses came under
 their view, might be heard far beyond the winning post.

TUESDAY—FOURTH DAY.

City Cup given by Samuel Dickson, Esq. and £20
 added.

Mr. O'Sullivan's Heroine (green) — 1 1
 Mr. Molony's Sprite (blue) — 2 2

This race excited considerable interest: The Silver
 Cup is challengable, and to secure permanent possession
 must be won three times. The racing this day was very
 pretty, and the victor won the prize merely by a length.

Fifty sovereigns for all horses that ran at the meeting.
 This was the last plate.

Mr. H. Lyons's horse, — — 1 1
 Mr. Mitchell's ditto, — — 2 dr.

The first heat was well rode, and both horses came in
 with spirit to the winning post. The distance was trifling
 one from the other, yet Mr. Mitchell withdrew from the
 next heat, and Mr. Lyons walked over. The meeting
 broke up immediately after and the encampment was
 dissolved.

We lament to observe that some serious accidents have
 occurred during the race meeting, and that life has been
 the penalty in some two or three instances. Michael
 Ahern, a tradesman, was killed yesterday evening in
 Clare-street, by the blow of an iron bar, while returning
 from the course. The unfortunate man presented a
 revolting spectacle; his forehead was fractured, and the
 upper part of the head completely beat in.

Three men charged with the murder of Ahern in Clare-
 street, were apprehended last night, by the very active
 exertions of Mr Magrath, a most efficient and zealous
 High Constable.

A curious accident was noticed at the Course on Mon-
 day. A fellow after smoking his pipe put it in his
 breeches pocket without extinguishing the embers. He
 was regardless in the hilarity of the moment, that a paper
 of gunpowder was stuck away in the same pocket.—

an explosion ensued, and the man was severely hurt
 in thigh and side. The consternation of those who wit-
 nessed the accident was indescribable, and it was long
 before the cause was discovered.

The Races Ball at the Arcade, Lower Cecil-street, on
 Monday night, was attended by a great number of
 fashionables.

Patrick Sims was this day lodged in the City Gaol for
 striking a woman named Costelloe with a hatchet, on
 Monday evening, in White-Wine-street, the effects of
 which nearly caused her death.

Nine persons, in various parts of the town, are consid-
 ered in a dying state, from intoxication and the conse-
 quent excesses at the Races.

Since the commencement of the Races, twenty-five
 men were committed to Gaol, charged with aggravated
 assaults in the Course and when returning from thence.

The two clerks who were lodged in the City Gaol on
 Thursday, on a charge of robbing their employer, were
 discharged on recognizance at the Petty Sessions on
 Saturday.

There are no Military Promotions in the London Ga-
 zette of Friday evening.
