JUST ARRIVED TO
SAMUEL LEAKE,
OF RATHKEALE,
WHO informs the Public, that he has this week returned from England, where he has been for the last month purchasing in the principal Manufacturing Towns, a general and elegant supply of every article in the way of his business, and having paid ready money for all his Goods, for which he was allowed a large discount, he is therefore enabled and determined to sell them considerably under the usual prices.
S. LEAKE invites the public to an inspection of the above Stock; and should they favour him with a call, they will find it most materially their advantage to deal with him, as he is determined to sell at very reduced prices.

BUTLER'S CONCENTRATED FLUID EXTRACT,
OR CORTICAL ESSENCE OF
Red Jamaica Sarsaparilla,
For making the Decoction at the instant it may be required and in a manner superior to that usually adopted.
A DESSERT SPOONFUL IS EQUAL TO HALF A PINT OF THE BEST MADE DECOCTION.

IT is used as an alternative in Scrofula, Scurvy, and other cutaneous diseases, and as a remedy to counteract the injurious effects of Mercury. The high commendations which have been bestowed on this article, both by the first Medical Authorities and the Public, induce Messrs. Butler to state in justice to themselves, that the Fluid Extract, or Cortical Essence, announced under their name, was the original preparation of the kind introduced into Medical Practice—that it is prepared according to a process peculiar to themselves, by which the Salt of Sarsaparilla (discovered by M. Galileo-Pallota, and supposed by him to be the principle in which the virtue of the root resides) is preserved; that it has been proved by experiment, to be twice the strength of other preparations of the kind—is better adapted for keeping, in consequence of the concentrated state in which it is prepared, and is more portable and convenient for exportation and traveller.

The Fluid Extract is sold in Bottles at 6s. and 15s—the Compound at 7s and 18.

N. B.—In order to meet the wishes of those Members of the Profession, and Patients' to whom portability is not of importance, Messrs. B. have prepared the Extracts, both simple and compound, in a dilute form, so that a Tablespoonful, instead of a Dessert-spoonful, will form the dose—they nevertheless recommend the above concentrated for the reasons already assigned.

The Dilute Extract is sold only in Half-pint Bottles; Simple Extract, 6s; Compound, 7s.

Prepared by Messrs. JOHN and CHARLES BUTLER, Chemists to his Majesty, and his Excellency the Lord Lieutenant, 54, Lower Sackville-street, Dublin.

AGENTS.—Messrs. Homan and Guerin, Limerick; Pinchin and Ryan, Ennis; Lawler, Tralee; Murphy, Killarney; Justice, Malinow; Morrissey, Tipperary; Kingsley, Templemore; Downer, Roscrea; Shields, Birr; Harty, Nenagh &c.; of whom may be had every Genuine Patent Medicine of repute
