FOR INDIGESTION

AND
 Those Complaints of the Stomach and Bowels commonly termed Biliary or Nervous.

AFTER extensive experience of their efficacy, the Aperient Antibilious Pills are strongly recommended to those suffering from an impaired state of the functions of the Stomach and Bowels, derangement of the Biliary Organs, and interruption of the Digestive Process, attended with Habitual Constipation, Sick Headache, Bitterness in the Mouth, Nervous Affections, Loss of Appetite, Flatulency, or Heartburn. The strongest attestations could be produced of their general success, and from their permanent effects in promoting the healthy action of every organ, restoring the natural secretions, and invigorating the system, the Proprietors believe they are fully warranted in recommending them as a most effective remedy in the above complaints.

These Pills contain no Mercurial preparation, may be used in ordinary cases of disordered Stomach and Bowels, and require no confinement. They are peculiarly adapted to persons whose sedentary habits produce Dyspepsia. Being purely of vegetable composition, they form a most valuable Family Medicine, and are decidedly preferable to those nauseous and drastic purgatives which are commonly used. Sold in Boxes, 1s.—2s.—4s.—and 10s. each.
