o paragraphs on the *Sentinel* of yesterday, concerning the appointment of Medical Officers to Barrington's Hospital, which was headed *Assault Extraordinary*, and contained nothing more than stating they contain, to be an *gross and exaggerated misstatement* of the truth. J. J. BARRY.

of the Limerick Chronicle.

I appointments to Barrington's Hospital than ordinary sensation in this City, has gone abroad that re-appointments Monday last, to the exclusion of some on Saturday previous, I feel it a duty to give to the public a statement of the reason why I am determined to assign the reason why I am determined to resign the privileges which my election to that office gives me. It being rumoured after the meeting of some of the medical gentlemen that act in concert with me, for no other reason than contemptuous indifference, were true, it would have no weight composed as it is in a great measure of industry, have elevated themselves to a respectable station in society—and with such as licentiate of the Apothecaries' Hall, Beauchamp, and a member of the Royal Society, London, would be a recommendation. I should have contented myself been convinced by a friend on whose veracity the feelings of some of the medical gentlemen, for the reason above stated—the result of this, I was determined to have from themselves.

Dr. Brady being one of those who opposed this affair originated, I sent to him an explanation, he denied having done so in connection with the subject, even the most courteous terms of personal respect by saying, that he would be always professionally. The following morning I met Rev. Dr. Ryan, as Chairman of the Committee I mentioned the circumstance to the very respectable Gentleman, his Lordship Committee would not act in a manner so gross and so unbecoming to a rising establishment what they had done at a former meeting. In subsequent meeting of the Committee I say that I was then excluded. This, should I by no means intend to abide by that resolution by a friend of unquestionable respectability, junr. would not act with me, I stated I sent to him to demand an explanation, he most peremptorily refused to me—leaving the meeting. The citizens of Limerick sent, I now leave it to the public knowledge of this matter. I am not influenced by any advantages that might arise from the Hospital. I look solely to the effect it future professional prospects, should it go
