LIMERICK FEINAGLIAN INSTITUTION

THE REV. G. GREGG, having removed to an airy and commodious house in Thomas-street, is now enabled to accommodate a few additional boarders.

Mr. G. begs leave to return his sincere thanks to the inhabitants of Limerick for the kind patronage he has received commencing to prosecute (he trusts successfully) the Feinaglian system of education so highly approved of by the public, and sanctioned by the Heads of Trinity College, and hopes continued reference to the progress of his pupils and approbation of their parents, to merit a continuance of public sanction.

It is Mr. G.'s intention, with the co-operation of parents to continue to dispense with corporal punishment, which will be always sedulously avoided.

Mr. G. having procured excellent assistants, now invites the public to the examination and experience of his system and doubts not they will find inducements to continue their patronage, both from the uniform progress of his pupils, the moderate rates of Tuition in the French and other departments.

N.B.—There are no extra charges to the terms stated in his cards of tuition.

The periods of vacation, which will be short, are deduced when the pupil's entrance takes place after 1st May, or November.

A similar arrangement for absence occasioned by sickness or any other reasonable cause.

As to Mr. G.'s success as a Teacher, &c. reference is requested to his former advertisements.
