addressed the people at the Chapel of St. Andrew, where he was enthusiastically cheered and after visiting the Rev. Mr. Crotty, Rector, Doctor O'Donnell, (Mr. Kelly's) and other persons of distinction, he returned to the village as he went along. With him and his friends could induce several through the streets, from again unyoking him out of town.

On Monday evening after being some time must confess that we were agreeably surprised at the appearance of the house presented, with the rank, beauty, and fashion of the mind has been so depressed by events unnecessary more particularly to refer, relieved and refreshed; and how could it be as in the moral, intellectual, and Operatic Performances. The Piece of the evening was *Rob Roy*; and, notwithstanding all the disadvantages usually attendant hastily got up, it gave general satisfaction. *Mrs. Waylett* was susceptible and effect; in her songs of the "My own Blue Bell," she displayed her eminence she has acquired of being the English stage; but in her affectation of "Kate Kearney" she displayed her talents, and won the sympathies and feelings which were loudly expressed in a flattering manner. *Mr. Horncastle's Francis Alexander's Bailie*, were sustained, and were strikingly effective, instructive. The little *Corps de Ballet* contributed to the amusement of the evening by their Highland Flings and the "Garland" the company made a very respectable no doubt continue to attract crowded houses they are to remain in Limerick. — A very agreeable treat which the people indecent conduct of the gallery, — graceful. But we never recollect such a interruption. A comparison would be made with the Dublin and Cork Theatres in

account Gort arrived at his brother's residence at Loughcuter Castle, Gort. A woman took sick of Cholera near the house, apparently sunk so fast under the disease that her relatives absolutely confined her, and the spark of life was yet in active motion. A boat, in order to transmit the body to the burial, when a young medical gentleman compelled the few friends who attended he was himself obliged to raise the body, when remedies were administered, she, tho' she lingered for thirteen hours

Magistrates have sentenced James Frazer, to one month's imprisonment, for employing without notice.

The Schooner *Felicity* of Cowes, on her way to Cork, was wrecked on the rocks at the Custom House Quay, and the vessel and crew were drowned. — His Majesty's Yacht *Albatross* D. F. G. Watson held an inquest on his return — "Accidental Death."

The cholera has materially abated at Limerick, and in a few cases this week.

A Report of Saturday presented but the death. Yesterday's Report is still the same; 3 died; 1 recovered; 1 recovered. Total cases 328; total deaths 143.

system. In the sick or nervous head-ache they afford immediate relief. In inflammatory and putrid sore throats, and in all cases wherein the Camphor Julep is advised, these Camphorated Lozenges may be taken with superior advantage. At routs and all fashionable assemblies they are particularly refreshing. The genuine Camphor Lozenges are prepared by J. Shepherd, 176, Fleet-street, London, and sold only in bottles, at 2s. 9d. and 4s. 6d. each; and may be had by asking particularly for "Shepherd's Camphor Lozenges." — Also,

SHEPHERD'S DIGESTIVE BI-CARBONATE LOZENGES.

These Lozenges are truly prepared with the Bi-Carbonate of Soda, procured at Apothecaries' Hall, from the recipe of M. D'Arcet, and recommended by him, and many medical practitioners, as the best and most effectual remedy in cases of disordered digestion. One or two of these Lozenges taken before dinner, generally produce a favourable disposition in the stomach to digest those things which could not otherwise be taken, and, if continued for a short period, will completely restore the stomach to its original tone; the action which they produce is so prompt and complete, that any person suffering from Indigestion should not hesitate in making a trial of a preparation of such acknowledged efficacy, and which has obtained such high recommendation. These Digestive Bi-Carbonate Lozenges are most scrupulously prepared, as directed in the Memoir by M. D'Arcet, and published in the "Annals de Chemic;" and sold by J. Shepherd, 176, Fleet-street, London, in bottles, at 2s. 9d. each; and may be had on asking particularly for "Shepherd's Digestive Lozenges." — Also,

Lay by
SHEPHERD'S HIPPO, IPECACUANHA LOZENGES, For Colds, Coughs, &c. &c. &c.

These Lozenges have now been before the public more than TWENTY-FIVE YEARS; they are prepared with Ipecacuanha procured at Apothecaries' Hall, and continue to receive the recommendations of medical Practitioners generally. — Dr. Reece, in the third Edition of his "Domestic Medicine," page 432, says, "The author recommends the Ipecacuanha Troches, introduced by Mr. Shepherd, which are certainly calculated to relieve breathing and assist expectoration. These Troches are a safe and useful remedy for coughs of every description, and an excellent form for giving small doses of Ipecacuanha to children in cases of cough or fever." Sold in boxes, as usual; but, in order to procure these Lozenges in a genuine state, they must be asked for particularly as "Shepherd's Ipecacuanha Lozenges." — 176, Fleet-street.

SHEPHERD'S FRUIT LOZENGES.

For Coughs, Hoarseness, Sore Throats, &c.

The general esteem in which BLACK CURRANTS and TAMARINDS are held has induced the Proprietor to combine them in the very agreeable form now presented to the Public. To expatiate on the efficacy of these Fruits in cases of Coughs, Sore Throats, Hoarseness, &c., would be a mere echo of an acknowledged truth. The Tamarind is both a cooler and allayer of Thirst.

"Lay me reclin'd
"Beneath the spreading Tamarind, that shakes,
"Fann'd by the breeze, its fever cooling fruit."

A Combination of Black Currants and Tamarinds in the form of Lozenges will be found a most grateful and delicious Confection, and will prove a valuable and elegant Remedy in all Pulmonary complaints, allaying that irritating sensation which occasions frequent Coughing, and by their lubricating properties, tend to preserve the lungs from those lacerations which are so often attendant on dry Coughs,
