ROBERT SWAYNE, Resident Apothecary.

To the Editor of the Limerick Chronicle.

SIR—Having observed in your last Paper a paragraph stating that it was the intention of the Horse-Guards to place immediately upon half-pay all Officers using eye-glasses; I beg to remark, as an old Officer, that should this order be carried into effect, it must tend wonderfully to the advantage of the Service at large. There are at present two classes of Officers to be found almost in every regiment, that must come within its view. The first, the poor wearing a glass merely for fashion sake, or, perhaps, from partial blindness. The second, labouring under defect of vision from infancy. There is nothing so very unbecoming or unsoldier-like than to see an Officer, either off or on duty, with a glass stuck in his orbit. Why not have such men submitted to medical inspection, like the soldier, previous to entering the service.

Your obedient servant,

AN OLD OFFICER,
AND FRIEND TO THE SERVICE.

To the Editor of the Limerick Chronicle.

SIR—In the case of the King at the prosecution of Henry Mahon, Esq. v. John Barry, Arthur Gloster, and John Mahon, and which was reported in your paper of Wednesday 9th ultimo; it was stated as sworn by the prosecutor, on cross-examination, "that Mr. Cudmore said that Mr. Gloster had applied to him to take a message to him (Mr. Mahon) and that Cudmore said he would not do any such thing for such a fellow" I, consequently, deemed it to be due to my character to take the earliest opportunity of ascertaining from Mr. Cudmore, after his return from France, where he had been when that evidence was given, if he had used such expressions; and I have been authorised by Mr. Cudmore, to insert in the print in which that testimony was reported that he not only never uttered the words, but that having been made acquainted with the circumstance, he demanded an explanation from Mr. Mahon, who, in the presence of William Hogan, M.D. James Black, Edward Murphy, Robert Ker D'Esterre, and Nicholas Mahon, Esqrs. declared that he (Mahon) had no recollection of having used the words, "SUCH A FELLOW" on the trial, and that Mr. Cudmore then told him "you could not have said so, because you did not utter such words." I have, therefore, to request that you will give insertion to this clear and concise contradiction to an aspersion sworn to in open Court, and subsequently published, and upon which it is needless for me to say any comment.

I have the honor to remain, Sir, your obedient servant,

A. GLOSTER.
