AMERICA. FIRST SPRING SHIP FOR QUEBEC AND MONTREAL WITH PASSENGERS.

THE BEAUTIFUL COPPER-BOTTOMED FIRST-CLASS SHIP.

BREEZE of LIMERICK, 700 TONS BURTHEN, TIMOTHY GORMAN, Master,

TILL sail on the 25th of MARCH, wind and weather permitting. The BREEZE is in every respect one of the most superior vessels ever offered for Emigrants. She was built for the Canada trade, and has therefore good height between decks. The extraordinary passages which this Vessel has made for the last three years, and the kind attention shewn by Captain GORMAN to his Passengers, is well known to the numerous friends of those who have been so fortunate as to sail with him. The Cabin and Steerage Berths will be (as usual) fitted up in the best manner, and as many are already engaged, an early application is recommended, to the owner, FRANCIS SPAIGHT, Esq. at his Office, Bedford-row.

N.B.—The well-known vessel, Theris, of Limerick, 600 Tons burthen, will sail for Quebec, on the 2d of April : the Agnes, and others, will also succeed the Thetis.

CAUTION .- The numerous losses and disappointments which are so frequently encountered by Emigrants, should make them most particular in selecting good and well-known Vessels, and in avoiding all old and bad Ships, though offered at a reduced rate. The payment of a few additional shillings for a passage is immaterial, compared with the safety, comfort, and speedy arrival of a vessel.

Strangers are too often only anxious to obtain Money, which, in the event of any accident, or delay, is always difficult, if not impossible, to get refunded.
