 At Trichinopoly, Marian, wife of Assist. Apoth. R. Bastion, H.M. 54th Regiment.

ESTABLISHED MARCH, 1824.

THIS SOCIETY HAS BEEN ESTABLISHED principles combining the most perfect advantages superior to those offered by any similar character.

The Capital amounts to **TWO MILLIONS** in Shares of £100 each.

The Assured are entitled to *one-third* of the Fire Department, and to *two-thirds* in the Life Department, *without any liability on their part to the loss* the power of ascertaining their rights, by appointing certain limitations, three persons to inspect the Company for the preceding year; and the advantage of appointing a person to assist in making the Profits out of which the Bonus is paid.

In cases of claim for loss by Fire, where fraud exists, the Company will refer any disputed amount of Loss, to settlement by Arbitration, the Assured.

Persons desirous of effecting FIRE ASSURANCE should be held Assured from the moment the Proposals are signed by the Agent.

BONUS.

At the annual General Meeting of the Fire and Life Assurance Company, held in May last, the Board of Directors declared a Bonus from the Profits of "the Fire Assurance" to the Shareholders, and the Assured in that department. The former it will be £4 per cent. on the deposits, in addition to the usual annual dividend of £4 10s. per cent.; and to the latter it will be £4 per cent. on the amount of premium received on the 24th March, 1834, which had not existed on the 24th March, 1833, or more, of the previous to that time. Both will become payable on the 1st of October next.

LIFE ASSURANCE.

The advantages to be derived from effecting Life Assurance upon Lives are every day becoming more generally appreciated; it is unnecessary therefore to dwell upon those whose incomes are limited or uncertain, or to such as, having small fortunes, seek to secure a means of annual expenditure, the benefits of which are established by the establishment of an office conducted upon the principles of the one now offered to their notice.

The Rates of Premium have been adopted with the most liberal consideration, and are lower than those of any other similar establishments. But it should be recollected that moderate Rates are not the sole object of the Society offered to persons intending to insure: *two-thirds* of the Profits will, after a stated period, be either applied to the amount of each policy, or be applied in the reduction of the premium; and if such option be not declared at the time of insuring within two calendar months next after the expiration of the term shall have been declared, the Directors will apply the same thus accruing, to the amount of the Policy.

The business of the Life Department is entirely distinct from that of Fire, and its accumulation is intended to make good any losses arising therefrom. *Assured incur any responsibility on account of*

The Rates of Premium, and all other particulars, may be obtained on application to

JOHN GRIFITH

No. 64, Roche's-street, corner of Castle Street.
