the report. As the list will be drawn up in alphabe-
 tical order, the contingent of each place will be
 ascertained with great facility, and every province and
 county will be found to have contributed largely,
 through its parishes, to the liquidation of this para-
 mount claim upon Ireland. It is expected that the
 Localities still in arrear, will, *in every case*, take
 advantage of the next three weeks to atone for the
 postponement, by increasing activity in making up
 their several contributions. It will be necessary that
 the Remittances shall reach the Secretary, *on or before*
Wednesday, the First of August at the latest, in order
 to their being embodied in the Report, and the anxiety
 of the people to see their Parishes enrolled therein, is
 as universal as it is honourable to their sentiments of
 gratitude and justice.
