leir, R.N.

sented by this Society, bears no proportion to the wants of the community; and they cannot too strongly impress upon all, but more especially the trading classes and professional men, the great and obvious importance of having such a Society established amongst them. Those who join it provide at once against the sudden mischances so frequently occurring, by which families are reduced from comparative affluence to penury and distress; and they feel satisfied that, by the regulation adopted under the Act of Parliament, the Investments must remain in perfect security, and can never be appropriated, except for the objects contemplated by the Institution.

" The economy which has been observed throughout with respect to the necessary expenses of management, has reduced the expenditure far below that of other Societies.

" Your Board congratulate the Society on having, since its commencement, only one claimant on their Books for one Annuity, payable in 1841."

After the reading of the Report, the Chairman and Members present expressed themselves highly gratified at the increasing prosperity of the Society, and a resolution adopting and approving of the Report and Statement, was carried unanimously.

The vacancies for Directors and Auditors having been filled up by ballot, a vote of Thanks was passed to the Auditors, for their valuable services in examin-

ing the Accounts. The Mayor being then moved from the Chair, and J. W. O'GRADY, Esq. called thereto, the Thanks of the Meeting were unanimously given to the Mayor, and the Directors, and Officers of the Institution, for their unremitting attention to the interests of the

Society.

## Influenza and Fever.

## DR. NORRIS'S DROPS

RE a certain remedy for Fevers, Colds, Influ-ENZA, and all Diseases that arise from obstructed perspiration. The Medicine here recommended to the Practitioner, and the Public, possesses qualities of the most mild and beneficial nature; it is composed of articles known to be the most anti-putrescent, combined with the ingredient known to the Profession as the only certain antidote for Fevers of every description. When the disease is produced either from cold, obstruction, bad air, swampy and damp situations, or putrid miasma, whether malignant or epidemic, or by other causes, this medicine is certain in its operation and effects, it produces the most gentle and salutary perspiration, and by a specific quality peculiar to itself, not only expels the disease, bu restores and invigorates the system. These celebrated Drops have had the unbiassed testimonies to their invariable effects, of numbers of the nobility, gentry and medical men of this Kingdom, and the extensive demand for them from the West Indies, and America proves that in those countries they are held in equa estimation.

The genuine will have engraved on the Government stamp, "Thomas Norris Moore."

In Bottles at 2s. 9d., 11s., and Family Bottles at 22s. each. SOLD IN THIS CITY, ONLY AT
