PERSONS effecting Assurances with the ALLIANCE COMPANY, will enjoy the following important and striking advantages:—
I. Perfect Security.—The Capital of £5,000,000, under the immediate management of the above Board of Direction, is pledged for the security of the Assured.
II. Honor and Liberality in the Settlement of Losses. The well-known character of the Members of the Direction, affords, on this head, every possible security.
III. Moderate Premiums of Assurance. The rates of Premiums of Assurance, for the greater part of LIFE, will be found lower than those in use in most respectable Offices.
The Premiums of Assurance on FIRE are the same as those which are demanded by the first class of Assurance Companies.
IV. Participation of Profits by the Assured, both in Life and Fire. The Profits of the LIFE Department, appropriated every Five Years, will be applied either to the reduction of the rate of the future Premium to be paid on the Policy, or to the increase of the Sum assured on the Life, as shall be most agreeable to the Assured; the party to make his choice at the time the proposition for Assurance is made.
The Profits of the FIRE Department appropriated to the Assured, will be distributed at the close of each successive period of Five Years, in the form of a percentage on the Premiums which have been paid.
At the two quinquennial divisions of profit in the LIFE Department, in 1829 and 1834, the sum appropriated to the holders of Policies for the whole term, was equivalent, on an average, to about 20 per cent. on the Premiums which had been paid.
V. Parties who obtain the settlement of losses from Fire are not thereby deprived of their right to participate in the Profits of the Company.
VI. Losses by Lightning are made good.
