BANKERS—Messrs. Barclay, Bevan, and Co.
MEDICAL REFEREE IN LIMERICK—Thomas Kane, Esq. M. R. C. S. D.
This Association is a Friendly Society, formed on the principle of Total Abstinence from all Intoxica- ting Liquors, for the purpose of providing *Annuities for Widows, Endowments for Children, and Sums of Money payable at death, or on attaining certain ages.* The Association consists of the *Members* who contract for certain benefits, and amongst whom *the whole of the profits* are divided—and of *Honorary Members*, who contribute to the funds by way of Donation or Annual Subscription.

Premium Tables are so seldom read in Advertise- ments of this nature that they are not inserted here. The Agent will give every information required, Prospectuses, &c., on personal application.

The advantages of this Institution, particularly to the operative classes in Towns and Cities, and to Country Farmers, are manifold.

A Tradesman or Farmer wishing to make provision for a Son or Daughter arrived at maturity, or for himself and family, WHEN HE IS PAST HIS LABOUR, may do so by insuring in this Office for a Sum, the Premium for which, would be no more in amount than the money paid for a pint of ale or a tumbler of Punch a-day, therefore securing an independence for self and children without any great drawback on his pecuniary resources.

FOR EXAMPLE.

If every one of the age of Twenty-One Years applied One Shilling a week, (the average sum spent weekly by each individual in Great Britain on DRINK.) to effect an assurance in this Association he would leave to his family at his decease, *whenever it might occur*, no less than £135, besides all the profits of the Association which fall to his share.

If he preferred assuring a sum to be paid on his attaining the age of 60 years, the same weekly saving would secure him about £300 (in Depart- ment 3.)

Or he might assure in the Second Department, and secure £115, to be paid to his family at his death, whenever it might happen, or to himself, if he lived to be 60 years old.

Or again, the same weekly saving would purchase (in Department 6) an annuity of £26, to commence at the age of 60, and to be paid every year during the life of the annuitant.

If a man, instead of spending *three pence* per day in intoxicating drink, were to lay it by, at the end of four weeks he would have saved 7s. (to say nothing of *time and health, and character, &c.*) and if he put this 7s. every month into the Deposit Department (No. 4.) it would amount in five years to £24 2s.; in ten years to £52 2s. 6d.; in twenty years to £122 5s.; and in fifty years to £513! Thus a man who takes a pint of ale every day, loses in fifty years from three to *five hundred pounds* in DRINK!

The present Association has not been formed for the profit of a body of independent shareholders, but for the benefit of all who wish to avail themselves of its advantages, and who agree to abstain from intoxica- ting beverages. It need only be added, that the pro- fits accruing to the Association from the increased longevity of its members must eventually exceed those of other similar establishments, and will be the exclusive property of the assured.

Every information will be given on applica- tion at the Office, LIMERICK; and parties anxious to learn the peculiar features and advantages of the Society, are particularly requested to give the Agent a call, who shall be ready to do everything in his power to make explanations and facilitate the views and wishes of applicants.

N. B.—ASSURANCES FROM £10 UPWARDS CAN BE EFFECTED.

Payments of Premiums may be made Weekly, Monthly, or Quarterly.
